First and Only Malaysian University with QAA UK Accreditation 2024

APU achieves Global Quality Accreditation from QAA UK

Asia Pacific University of Technology & Innovation (APU), a leading Malaysian University has achieved a significant milestone by securing accreditation from the Quality Assurance Agency for Higher Education (QAA) in the United Kingdom. This accreditation underscores APU's commitment to excellence, rigorous quality assurance processes, and student-centered education.

The Quality Assurance Agency (QAA) carries out Quality Assurance for UK higher education institutions.

- APU underwent a thorough review process conducted by independent reviewers appointed by QAA. This involved almost a year of intense preparation and preparation of documentation.
- A comprehensive physical Audit was held at APU in March 2024. Based on the Audit, APU has been deemed to have achieved Accreditation by the QAA - the FIRST ever Malaysian University to have achieved this.
- The Audit Panel confirmed that APU meets all ten UK and European Quality Assurance standards covering areas such as teaching & learning, student support, research, facilities, resources and governance.
- APU Degrees will now be recognised on an equal basis with Degrees from UK universities due to QAA Accreditation of APU as a QAA Accredited Institution.
- APU graduates will benefit from this prestigious recognition of their qualifications in Malaysia, the UK and beyond.

APU's commitment to continuous improvement and adherence to international best practices played a pivotal role in achieving this accreditation. QAA accreditation enhances APU's global reputation and validates its commitment to quality education. APU will continue to uphold the QAA standards and strive for further excellence with pride.

1st Malaysian University

1 of 23 in the world

ONLY Malaysian University to achieve both QS 5-Stars Plus+ Rating & being Ranked in QS World Rankings 2024

- 1st** Institute appointed University Alliance Partner by SAP
- 1st** XR Studio - Mixed & Extended Reality Infrastructure in Asia
- 1st** Integrated Cybersecurity Talent Zone in Malaysia

QS defines rating as “The system evaluates universities across a wide range of important performance indicators as set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars™ shines a light on both the excellence and the diversity of the rated institution”.

"The QS Stars university rating system audits and rates over 600 universities globally in a broader range of criteria than any world ranking exercise. Comprehensive audits are also independently carried out as part of the rating exercise. QS Stars™ shines a light on both the excellence and the diversity of the rated institution. Congratulations to Asia Pacific University (APU) for being the first-ever QS 5-Stars Plus rated institution in Malaysia and being 1 amongst 20 in the world."

Leigh Kamolins - Head of Evaluation, QS Intelligence Unit

OUTSTANDING

Rated for Excellence

Asia Pacific University of Technology & Innovation

The QS Intelligence Unit has, through rigorous and independent data collection and analysis of performance metrics as set out in the QS Stars™ methodology, rated Asia Pacific University of Technology & Innovation as a Five Stars Plus institution.

Teaching

Employability

Online Learning

* Latest Graduate Tracer Study by Ministry of Higher Education, Malaysia

100%

Employability*

100% of our graduates are employed by graduation*; this is not just a number, but a significant symbol of our success and pride in nurturing professionals for global careers.

** Latest Graduate Tracer Study by Ministry of Higher Education, Malaysia.*

Industry Ready Graduates

The APU Career Centre connects and engages with over 12,000 Employers to ensure that our graduates are highly employable in both local and international corporations, as it closely supports APU students in both internship and career placement activities.

Work-ready, World-ready

Study with us and we'll equip you to become a world-ready professional, with the knowledge, attributes, skills and expertise that employers look for.

Employers are demanding that graduates not just have qualifications, but also have the experience and ability to contribute to the workplace. To meet these demands, APU develops programmes and partnerships with academic and industry partners, with a heavy focus on applied learning. This helps to ensure that the skills and knowledge taught at APU are up-to-date and in high demand.

Outstanding Support

Regardless of the programme you choose, you will be supported by highly qualified and enthusiastic professionals. Many enjoy an international reputation for their research and actively engage with leading names in the industry.

RANKED #1 for International Students in Malaysia
#16 in the World
 QS World University Rankings 2024

A Truly International Community

Just like the beautiful country in which we are located, APU is a rich blend of traditional and modern styles. We have developed a singular character to embrace those things that set us apart. We pride ourselves on the quality of both our teaching and research as well as having a unique living and learning environment.

A Hub of Cultural Diversity

With students from over 130 countries, we ensure that you will gain memorable experiences alongside the diversified and colourful cultural environment. We have students from Asia, Central Asia, Middle East, Africa, Europe, Latin America and Oceania. Our International Students Support Centre helps you with the procedure to apply for your Student Pass before coming here. Upon arrival in Kuala Lumpur, you will be greeted with warmth by our friendly staff, who will pick you up and bring you to our campus.

Student Welcome Team

The Student Welcome Team was established by Asia Pacific University of Technology & Innovation (APU) to improve the arrival experience of international students in Malaysia. "Warm Welcome, Warm Hello, Warm What's up" is the theme of this ASK ME Team.

Student Life @ APU

Being a university student can be one of your most exciting expeditions. Higher education opens up a world of new ideas, intellectual growth, new adventures and the building of lifelong friendships. Here at APU, we support you to take the time to explore not only the educational experiences but also the wide range of social, sporting and cultural activities on campus.

World-class Facilities @ APU

APU provides access to world-class resources across a wide range of disciplines. This translates into industry-ready skills and a competitive edge for graduates.

Our campus is well-situated in a high-technology environment, and is equipped to enable every student to get the most out of your study experience at APU.

An Integrated Community

The campus aims to establish a community aspect for the university - where integration is the key. Walkways, classrooms, communal spaces and discussion areas promote connectivity and cultivates exchange of ideas among students from different disciplines and academics, to implement cooperative learning concepts in line with the Industry Revolution 4.0.

Cutting-Edge Technologies

The Campus blends technology, integration, innovation and creativity under one roof. It provides not just a learning environment, but also a lively community spot for our students to formulate new ideas, gain intellectual growth and discover new adventures. It is not only a university campus, but also the nurturing ground for world-changing global ideas. All spaces are carefully designed to create an unforgettable learning and lifestyle experience that lasts for a lifetime, while enabling professional learning and cultivating global mindsets. APU, as Malaysia's leading technological university, is the incubator for self-starting and innovative APU graduates. Our educational technology environment supports the development of graduates of this calibre, in which well-equipped computing and engineering laboratories with advanced software, hardware and technologies place students at the forefront of technological excellence.

Social Interaction Platforms

Fitness Sweatzone, student lounges, sports facilities and breakout rooms provide spaces for relaxation and socialisation throughout the day. They are carefully designed to create an unforgettable learning and lifestyle experience that lasts for a lifetime, especially for students who are studying away from home.

Our Partner in Quality

De Montfort University (DMU), UK

De Montfort University Leicester (DMU) is a dynamic, 21st-century UK university with a global outlook based in the city of Leicester which is a great place to be a student.

Find your new home at DMU

At DMU, our supportive and nurturing community will empower you to realise your dreams. Our courses are carefully designed and taught by expert academics to help you gain the skills needed to enter today's competitive jobs market and succeed in your career.

The university is organised into four faculties; Arts, Design and Humanities, Business and Law, Health and Life Sciences and Computing, Engineering and Media.

Our award-winning careers and employability service, DMU Works provides guaranteed work experience opportunities, including placements, internships and career mentoring.

About DMU

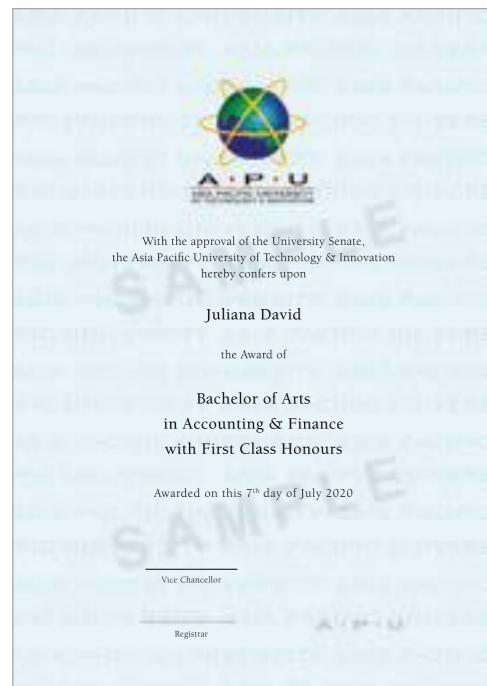

- DMU has over 150 years of history in providing higher education to students from around the globe.
- Leicester offer everything students could need and it has been named the fourth most vibrant city in the UK (Top Cities Vibrancy Report, 2022), as well as the best city in the East Midlands region to live and work (Good Growth for Cities Index, 2022).
- De Montfort University is the only higher education institution in Britain to be a global hub for one of the Sustainable Development Goals - SDG 16 to promote peace, justice and strong institutions.
- Each year, international students from more than 130 countries choose to study at DMU.
- DMU is rated a 5-star 'excellent' institution by QS, a world leader in evaluation higher education performance.
- DMU facilities have been shortlisted among the UK's best in the 2023 Whatuni Student Choice Awards, as voted for by students.

Double your Advantage

APU-DMU Dual Degree Programme

A · P · U
 ASIA PACIFIC UNIVERSITY
 OF TECHNOLOGY & INNOVATION

- APU's partnership with DMU enables students to be awarded Dual Awards - separate degree certificates from each institution - and enhances not just teaching and learning experiences, but also career prospects.
- Upon graduation, students will receive 2 Degree Certificates & Transcripts: 1 from APU, Malaysia and 1 from DMU, UK.
- Both degrees are recognised locally & internationally.
- The APU-DMU Dual Degree Programmes are offered under an approved collaboration in accordance with the QAA UK Quality Code for Higher Education for the Assurance of Academic Quality and Standards in Higher Education as published by the United Kingdom Quality Assurance Agency (QAA).

Pathways & Admission Requirements

ADMISSION REQUIREMENTS

BACHELORS (HONS) DEGREE PROGRAMMES

| General Requirements | | |
|--|---|---|
| DIRECT ENTRY TO LEVEL 1 OF THE DEGREE: | | |
| | Accounting & Finance | Banking & Finance / Actuarial Studies |
| STPM | - 2 Passes in STPM with a minimum Grade C+ (GP 2.33) and a Credit in Mathematics at SPM Level or its equivalent. <i>(MUET Band 2 is required for all Malaysian Students)</i> | - 2 Passes in STPM with a minimum Grade C+ (GP 2.33) and a Credit in Mathematics and a Pass in English at SPM Level or its equivalent. |
| A-LEVEL | - 2 Passes (Grade A-D) in A-Level in any 2 subjects, and a Credit in Mathematics at SPM/O-Level/ IGCSE or its equivalent. | - 2 Passes (Grade A-D) in A-Level in any 2 subjects, and a Credit in Mathematics and a Pass in English at SPM/O-Level/ IGCSE or its equivalent. |
| UEC | - 5 Grade B's in UEC including Mathematics <i>(MUET Band 2 is required for all Malaysian Students)</i> | - 5 Grade B's in UEC including Mathematics with a Pass in English. |
| MATRICULATION/ FOUNDATION | - Passed Foundation programme (minimum CGPA of 2.5) with a Credit in Mathematics at SPM/O-Level/IGCSE or equivalent. | - Passed Foundation programme (minimum CGPA of 2.5) with a Credit in Mathematics and a Pass in English at SPM/O-Level/IGCSE or equivalent. |
| ENTRY TO LEVEL 2 OF THE ACCOUNTING, BANKING OR FINANCE DEGREE: | | |
| DIPLOMA IN ACCOUNTING | - Passed Diploma with minimum CGPA of 2.5 and a Credit in Mathematics at SPM/O-Level/ IGCSE level. | |

Any qualification that APU accepts as equivalent to the above.

ENGLISH REQUIREMENTS (only applicable to International Students)

| Programmes | Requirements |
|--|--|
| Foundation Programme | • IELTS : 4.0 • TOEFL IBT : 30-31 • Pearson (PTE) : 36 • MUET : Band 3 |
| Diploma in Accounting Accounting & Finance Bachelor (Hons) Degree Programmes | • IELTS : 5.5 • TOEFL IBT : 46 • Pearson (PTE) : 51 • MUET : Band 4 |
| Banking & Finance and Actuarial Studies Bachelor (Hons) Degree Programmes | • IELTS : 6.0 • TOEFL IBT : 60 • Pearson (PTE) : 59 • MUET : Band 4 |

Please note that under Ministry of Higher Education regulations, only students who have achieved the minimum requirement in the English Language proficiency assessment as indicated above will be allowed to continue their studies in the main study programme. Students who do not have the required English Language achievement may apply for a student visa on conditional basis and are allowed to enrol in an English Language Certification programme at APU upon arrival in Malaysia and, subsequently, appear for the IELTS/TOEFL/PTE/MUET assessment.

Students who are unable to obtain the required level of English Competency during the maximum 12 months' period, will not be allowed to pursue their studies in the main programme and will have to return to their home country. Students from English speaking countries and those with qualifications taught in English (IGCSE, A-Levels, IB, American High School Diploma etc) are exempted from English requirements. Applications for exemption must be accompanied by supporting documents.

Note: The above entry requirements may differ for specific programmes based on the latest programme standards published by Malaysian Qualifications Agency (MQA).

Foundation Programme – Flexibility of Choice

Duration: 1 Year (3 Semesters)

(R2/0011/3/0089)(11/24)(A10955)

MODULES YOU STUDY

The modules studied help develop your study skills, introduce you to what you can expect on your degree and also allow you to discover what you can study depending on whether you choose a degree in Accounting, Banking, Finance, Actuarial Studies, Psychology, Business & Management, Computing & Technology, Engineering, Industrial Design, Animation and Visual Effects.

ENRICHING EXPERIENCES - MORE THAN JUST A FOUNDATION

The APU Foundation Programme lays the pathway towards professional tertiary education. It is a vital transformation point for students' soft skills, general knowledge and preparatory subject fundamentals acquired at the Foundation lead to excellence in a student's education performance, as well as career readiness as they move on as global professionals eventually. This is achieved through 4 key areas:

- Leadership & Teamwork
- Problem-Solving Skills
- Social Skills & Responsibilities
- Practical Skills

The unique support system at APU Foundation Programme consists of helpful academic mentors who are committed in ensuring academic achievements, providing pastoral care, advising, mentoring, motivating students' potential and performance, to ensure that they undergo a smooth transition from secondary education to tertiary learning.

Accounting, Banking, Finance & Actuarial

THE AIMS OF THE APU ACCOUNTING, BANKING, FINANCE & ACTUARIAL PROGRAMMES ARE TO:

- Provide you with a rewarding yet challenging learning experience to enable you to be a high quality graduate with the knowledge, skills and understanding for an effective and valued career.
- Enable you to undertake employment in industry, commerce or public service as professionals by developing your capabilities in relation to innovation, integration of ideas and concepts, interactive development, information provision and imaginative approaches to processes and problem solving.
- Provide you with a Personal Development Planning opportunity in relation to enhancing your employability through increasing your independence, inventiveness, ingenuity and developing your all round intelligence in relation to solving problems, decision making, working with other people and communication skills.
- Facilitate your progression, both academic and practical, by means of developing knowledge, key skills and a capacity for independent and lifelong learning.
- Enable you to specialise in depth in areas corresponding to your ability and choice.

- 1: INNOVATION**
through the design of curriculum, the module content and the learning approaches
- 2: INTEGRATION**
through developing your capabilities to interrelate knowledge and to work in multidisciplinary teams
- 3: INFORMATION**
through developing your knowledge and also your abilities to communicate effectively and persuasively
- 4: INTERACTIVITY**
through the use of group work to develop your teamwork skills and through the use of technology to achieve interactivity of devices and people
- 5: IMAGINATION**
in relation to new products, ideas, applications and solutions

Degree Programmes

ACCOUNTING, BANKING, FINANCE & ACTUARIAL DEGREES STUDY PATHWAYS

| LEVEL | PROGRAMMES |
|----------------------|---|
| COMMON LEVEL 1* | <ul style="list-style-type: none"> • Bachelor of Accounting and Finance (Honours) • Bachelor of Accounting and Finance (Honours) with a specialism in Forensic Accounting • Bachelor of Accounting and Finance (Honours) with a specialism in Forex & Investments • Bachelor of Accounting and Finance (Honours) with a specialism in Accounting Technology |
| COMMON LEVEL 1* | <ul style="list-style-type: none"> • Bachelor in Banking & Finance (Hons) • Bachelor in Banking & Finance (Hons) with a specialism in Investment Analytics • Bachelor in Banking & Finance (Hons) with a specialism in Financial Technology |
| SPECIALISED LEVEL 1* | <ul style="list-style-type: none"> • Bachelor of Science (Honours) in Actuarial Studies • Bachelor of Science (Honours) in Actuarial Studies with a specialism in Data Analytics • Bachelor of Science (Honours) in Actuarial Studies with a specialism in Financial Technology |

*Note: *Although Semester 1 at Level 1 is common for some programmes, students who are on scholarships or loans (e.g. PTPN, MARA etc) are required to decide on their degree upon commencement and are not allowed to change to another programme unless approved by the Loan/Scholarship provider. International Students are required to re-apply for a new Student Pass (visa) should they decide to change the programme.*

INTERNSHIP / INDUSTRIAL TRAINING

A well-structured internship or industrial training programme in collaboration with industry is incorporated into the curriculum. The main objective of the internship programme is to further enhance your employability. In many cases the same company at which you had internship/industrial training will offer you employment as soon as you graduate. In all cases you will gain an invaluable insight into the world of business and management practices and be better equipped to position yourself for the career you seek.

Embracing the wave of Industry Revolution 4.0

FUTURE-PROOFING THE WORKFORCE OF THE FUTURE

New waves of technological disruptions and the emergence of advanced technologies have resulted in the Fourth Industrial Revolution (Industry 4.0), where Robotics, Artificial Intelligence (AI), Machine Learning, Virtual Reality (VR), Cloud Engineering, Internet of Things (IoT), Data Science are going to transform the way businesses operate - routine, mundane jobs will be replaced and there is a growing need to develop "smarter" talents that can ride along the wave of digital transformation.

At APU, we developed our own IR 4.0 strategy to prepare our students to join the workforce of the future. We nurture the world's future innovators and uphold our Vision as a University of Technology and Innovation.

INDUSTRY REVOLUTION 4.0 @ APU

INNOVATIVE TEACHING & LEARNING STATE-OF-THE-ART INFRASTRUCTURE

In the era of Industry 4.0, learning is no longer confined within the classroom. Our iconic campus houses world-class facilities that aim to nurture Creativity & Innovation. Industrial-grade infrastructure are built to provide real-life exposure to our students, cultivating their practical skills aside from academic knowledge. We have also redesigned our teaching & learning methods to stimulate critical thinking, decision making, teamwork and build confidence.

REVOLUTIONARY PROGRAMMES DESIGNED FOR THE FUTURE

New technologies mean new expertise, while this translates into a new need of talents in new areas. We address the needs of the industry, to help to build talents who can manage, operate and innovate under the new IR4.0 environment, by carefully designing new programmes of the future. Our programmes are first-of-its-kind, such as in Cyber Security, Data Science, Internet of Things (IoT), Artificial Intelligence (AI), Digital Leadership, Digital Transformation, Sustainable Computing, VR/AR, Financial Technology (FinTech), Accounting Technology (AccTech), Digital Marketing, E-Business, Mechatronics, Computer Engineering, Cloud Engineering and more.

INDUSTRY-ACADEMIC PARTNERSHIP

Industry 4.0 is all about the "industry". Our close relationship with our industry partners allows students to be exposed to real-life case studies, enabling them to formulate innovative solutions even before they graduate. Innovative accelerators such as GrowthX Academy and Supercharger create a platform for students to realize their world-changing ideas, inspiring them to build startups and develop world-changing solutions.

PROFESSIONAL DEVELOPMENT WITH GLOBAL OUTLOOK

Communication skills, professionalism and cultural sensitivity are 'people' element skills that cannot be replaced by machines and automation. Under our unique formula to nurture professionalism, we create an ecosystem that simulates the workplace on-campus. Global outlook, international understanding and respect are nurtured through continuous immersion in multicultural discourse, as our campus houses a community of 13,000 students from over 130 countries.

AccTech: Technology-driven Accounting for a Brighter Future

As the business landscape continues to shift, the accounting profession too must be able to adapt. Accounting technology is revolutionising the field by replacing paper-driven processes with efficient cloud-based solutions, allowing for 24/7 access and greater flexibility.

Today, firms are using accounting technology and cloud-based platforms for automation, sophisticated diagnostics, and predictive analysis, resulting in improved client service and more effective utilisation of knowledge.

Our university's modules in accounting technology are designed to equip our students with the skills and knowledge to excel in today's fast-paced business environment, positioning them at the forefront of the industry with access to many benefits of accounting technology.

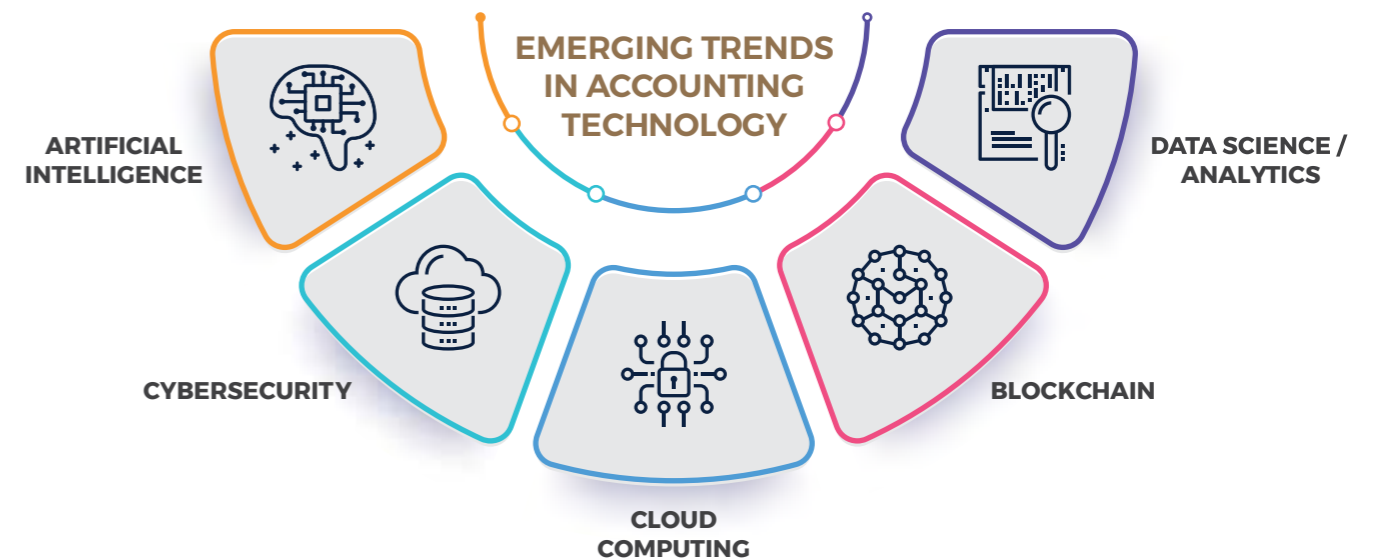

International Federation of Accountants (IFAC) President Rachel Grimes believes the application of technology allows accountants to focus on the more "interesting" parts of the job, as technology would assist with the more mundane tasks.

"I think the saying that accountants are not going to be around in the next few years because of technology is rubbish. In fact, I think technology has made the profession more exciting as it has helped remove some of the more repetitive tasks.

"For example, the application of robotics in terms of software for the accounts payable function when it comes to tasks like invoice matching, this relieves the workload for the accountant, who can then concentrate on more value-added tasks such as working with vendors on improving the payables process."

Malaysian Institute of Accountants' (MIA) inaugural AccTech Conference,
International Federation of Accountants (IFAC) - President Rachel Grimes

Source: <https://www.theedgemarkets.com/article/technology-will-easenot-take-over-accounting-jobs-%E2%80%94-ifac>

TECHNOLOGY TRENDS: THEIR IMPACT ON THE GLOBAL ACCOUNTANCY PROFESSION

According to a global survey conducted by Oxford Economics and SAP, 88% of finance executives reported that CFOs in their organisations are becoming more involved in strategic decision-making outside of finance, and 73% of survey respondents agreed that automation is improving the finance function's efficiency within their organisation. This suggests that organisations are increasingly recognising the importance of utilising technology to improve the efficiency of accounting practices.

A majority of 88% of participants surveyed stated that CFOs are increasingly taking part in strategic decision-making beyond finance.

Automation to drive efficiency is an increasingly critical area for CFOs, with 73% of survey respondents reporting improved efficiency within their organisations.

Cybercrime is a top business risk for finance leaders, with 68% naming it as such in the survey and 76% for the banking industry specifically.

UNLOCK YOUR POTENTIAL WITH ACCOUNTING TECHNOLOGY

Our university's Bachelor of Accounting and Finance (Honours) programme with a specialism in Accounting Technology is designed to give students a competitive edge in the industry by equipping them with the latest trends and technologies in accounting such as AI, blockchain, cloud computing, cybersecurity and data analytics.

Our programme not only covers basic concepts and theories, but also gives hands-on experience with tools such as R-programming, Tableau, Power BI, Blockchain Accounting and Robotic Process Automation (RPA). With our emphasis on technology and industry-ready resources, our graduates will be well-prepared to thrive in the field of accounting.

BACHELOR OF ACCOUNTING AND FINANCE (HONOURS) PROGRAMME WITH A SPECIALISM IN ACCOUNTING TECHNOLOGY

- R-programming
- Tableau
- Power BI
- Blockchain Accounting
- Robotic Process Automation (RPA)

"Technology will go on to helping to burnish the profession's credentials as trusted adviser.... continue to adopt and implement emerging technologies or be left on the sidelines."

- Rachel Grimes, IFAC President

"More than a third of the desired core skills sets of most occupations will comprise skills that are yet considered crucial to the job today due to IR 4.0"

- World Economic Forum Report 2016

FinTech for the Future

Financial Technology (FinTech) is gaining momentum year-on-year and is creating a huge demand for professionals with specific FinTech skills. Traditional accounting and finance industry is getting digitally transformed. To cater to the skill gap in the Financial Services, a sound knowledge on technology application has become an essential part of the graduate skill.

Traditional financial institutions and FinTech start-ups are looking for more candidates who specialise in artificial intelligence, machine learning and data science. According to a report by Bloomberg reporting and data from LinkedIn^[1], job listings requiring these skills in the financial industry increased nearly 60% in the past year. APU Accounting & Finance and Banking & Finance programmes are designed to cater to the increased demand for finance graduates with FinTech skills.

" FinTech is massively popular. 96% of global consumers are aware of fintech-driven money transfer and payment services. 3 out of 4 consumers have used an alternative money transfer and payment service."

- EY Global FinTech Adoption Index

Source: [1] <https://www.bloomberg.com/news/articles/2019-08-20/finance-needs-people-who-work-well-with-robots>

FINTECH FOR THE FUTURE

60% of consumers want to transact business with financial institutions with a single platform, such as social media or mobile banking apps. (Ernst & Young)

"Global FinTech market investments have seen a 28% year-on-year rise from 2018 to 2019." **Tranglo**

In 2017, 88% of incumbent financial institutions feared that they would lose money to the disruptive innovation of FinTech companies, but 82% plan to partner with FinTech startups in the next 3-5 years. (PwC)

In 2019, 64% of consumers worldwide have used one or more FinTech platforms, up from 33% in 2017. (Ernst & Young)

" Financial institutions are becoming more technology focused. We see it as the evolving intersection of financial services and technology. Looking forward, we expect FinTech disruptors to continue to expand into other areas within financial services."

- Pricewaterhouse Coopers (PwC)

" FinTech is changing businesses and customers rapidly. Those that embrace FinTech will stay at the forefront of their markets; those that don't will lose out on opportunities, customers, and market share."

- Bernard Marr, Forbes

Professional Recognition of APU Degree Programmes

As part of our professional recognition and collaboration with the following bodies, students who opt for professional certifications will benefit from our fast-track professional certification schemes below:

***APU ACCA Accelerate Scheme**

Students would be able to start the ACCA studies at the Professional level during their studies in Level 2.

****CPA Australia Fast Track Scheme**

Currently, students who graduate from Accounting & Finance programmes are entitled to the full-6-paper exemptions from CPA Foundation Programme. Under this scheme, students have the option to complete the Ethics and Governance module at the Professional level simultaneously with their degree programme, and complete the remaining 5 CPA papers after completing their degree in Accounting & Finance.

ACTUARIAL STUDIES PROGRAMME

APU is one of the first universities to receive Full IFoA Accreditation with (maximum) exemptions from CS1, CS2, CM1, CM2, CB1 & CB2 in the new IFoA curriculum.

For more information, please visit: <https://www.actuaries.org.uk/studying/exam-exemptions/university-courses-exemptions/asia-pacific-university-malaysia>

APU is the first and the only Malaysian university that has all the six preliminary exams (P, FM, IFM, LTAM, STAM & SRM) and all the three VEE topics listed in its SOA UCAP profile.

For more information, please visit: <https://www.soa.org/institutions/Asia-Pacific-University-of-Technology-Innovation.aspx>

PROFESSIONAL RECOGNITION OF APU DEGREE PROGRAMMES

ACCOUNTING & FINANCE PROGRAMMES

APU has been leading the way for its graduates in Professional recognition and exemptions in the areas of Accounting, Finance and Actuarial Studies. These are valuable not only for moving your career as a full-time professional forward but also for expanding your skills and expertise to become a more well-rounded employee. These recognitions help you become a more desirable job candidate or employee, one who can command a higher salary.

Upon completion of our Bachelor of Accounting and Finance (Honours) programmes, students are entitled to a maximum 9-paper exemption at the Fundamental level, out of the total 13 papers in Professional Accountancy qualification. ACCA does not provide exemptions at the Professional Level. However, as part of the collaborative efforts between APU and ACCA, students may also opt to go for the ACCA Accelerate Scheme*.

Upon completion of our Bachelor of Accounting and Finance (Honours) programmes, students are entitled to an 8-paper exemption out of 15 papers from ICAEW - Institute of Chartered Accountants in England and Wales.

Upon completion of our Bachelor of Accounting and Finance (Honours) programmes, Upon successful completion of the Bachelor of Accounting and Finance (Honours), students are eligible to start at Management Level through the CGMA® FLP programme. The programme is available for APU's Accounting and Finance students and is a new guided learning and assessment route to completing the CIMA professional qualification and earning the CGMA designation.

Upon completion of our Bachelor of Accounting and Finance (Honours) programmes, students are entitled to a 6-paper exemption out of 12 papers from CPA Australia. Under the CPA Australia Fast Track Scheme**, students may have the option to attain the CPA professional qualification, as part of the collaborative efforts between APU and CPA.

Upon successful completion of the Bachelor of Accounting and Finance (Honours), students are granted exemptions for the MICPA Professional Stage Examination in the following papers: Business & Company Law, Business Strategy & Financial Management, and Financial Reporting.

Students who are undergoing Bachelor of Accounting and Finance (Honours) are entitled to a 5-paper exemption out of 8 papers from CTIM.

BANKING & FINANCE PROGRAMMES

AICB collaborates with APU in sharing of leading practices, knowledge and expertise in banking trends and developments through industry surveys, publications and thought leadership initiatives.

APU is a member of the Chartered Financial Analyst (CFA) Institute University Affiliation Program. This indicates that at least 70% of CFA Program Candidate Body of Knowledge (CBOK) is embedded in our curriculum, and students who have completed our Bachelor in Banking and Finance (Hons) programmes are prepared to undertake the exams leading to the Chartered Financial Analyst® (CFA®) designation, which is the most respected and recognized investment credential in the world. In addition, APU is also eligible to receive a limited number of student scholarships for the CFA Program every year.

APU's selection as the CMT Association's Academic Partner Program signifies APU's strong commitment to students' career readiness and applied learning. Institutions in the CMT's Academic Partner Program demonstrate academic rigor in financial courses ranging from quantitative methodologies to behavioral finance, as well as portfolio management and other key aspects of technical analysis.

With this partnership, the two institutions illustrate an innovative solution to the growing demand for student education and career preparedness, while advocating for the advancement of technical analysis.

All the graduates of Banking and Finance are eligible to be affiliate members of CISI at a discounted price. Affiliate members of CISI will enjoy a suite of benefits, encompassing networking opportunities, continuous professional development, access to resources, and a commitment to ethical standards and professional excellence.

LSEG Financial Database

LSEG was previously known as Refinitiv and Thompson Reuters. Students can get access to real-time financial data via LSEG for analytics and research on par with the financial practitioners.

Note: All exemptions are reviewed by professional bodies from time to time when required.

Accounting & Finance Programmes

Accounting and Finance

Bachelor of Accounting and Finance (Honours) is an excellent springboard from which to launch a professional career in accountancy or to pursue further study. It is well-established and is designed to provide a thorough understanding of the principles and practice of accounting and related subjects. The award covers an in-depth knowledge of the core areas for those intending to move into the Accounting profession as well as those specialised areas such as tax, forensic and investment.

All Accounting & Finance Programmes are accredited by:

ACCREDITED PROGRAM

Bachelor of ACCOUNTING AND FINANCE (HONOURS)

(R2/041/6/0011)(07/25)(A6227)

At a glance

Module outline

LEVEL 1

Students will learn fundamental skills required by every accounting and finance professional, and the basic understanding of the legal, business and social environment in which accounting operates. They will familiarise themselves with business processes through the accounting software and the world leading enterprise resource planning software, SAP. Students will have the hands-on training with the system.

LEVEL 2

A broader range of skills will be learnt, in which students will gain a better understanding of traditional areas of Accounting and Finance, such as Management Accounting, Taxation, Financial Management, Advanced Corporate Reporting, Forensic Accounting etc. Technology savviness is the soft skills that important to nurture the students for independent learning and to prepare them for the workplace and for further research. We will expose them through modules such as Emerging Technologies for Accounting and Finance and Data Analytics in Accounting and Finance.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Sustainability is a multi-dimensional perspective on finance and accounting. To expand the application of technologies and problem solving skills after students return from their internship, modules such as Reflective Practice in Accounting & Finance and Robo Auditing & Analytics will be exposed to students by having capstone projects and hands-on training with the Robotics Process Automation (RPA) software. Students will expose to the effects of a decision or activity on the environment, society, and governance (ESG) modules such as Strategy, Sustainability and Leadership and Seminar in Accounting & Finance. A final year project requires them to explore a topic individually - they will demonstrate their academic and practical aspects of their ability in the chosen area of study.

LEVEL 1

Common Modules

- Quantitative Skills
- Introduction to Management
- Business and Communication Skills
- Financial Accounting 1
- Accounting Information System
- Business Economics
- Financial Accounting 2
- SAP ERP System in Accounting
- Business Law
- Marketing
- Fundamentals of Entrepreneurship

LEVEL 2

Common Modules

- Advanced Financial Accounting & Reporting
- Taxation
- Management Accounting
- Auditing and Assurance
- Emerging Technologies for Accounting and Finance
- Financial Management
- Corporate Governance and Risk Management
- Advanced Corporate Reporting
- Data Analytics in Accounting and Finance
- Company Law
- Performance Management

Specialised Modules

- Forensic Accounting

INTERNSHIP (16 weeks)

LEVEL 3

Common Modules

- Advanced Auditing
- Research Methodology in Accounting and Finance
- Corporate Finance
- Advanced Taxation
- Strategy, Sustainability & Leadership
- Advanced Performance Management
- Reflective Practice in Accounting & Finance
- Seminar in Accounting & Finance
- Specialised Accounting
- Accounting & Finance Research Project

Specialised Modules

- Accounting Theory and Emerging Issues
- Public Sector Accounting
- Robo Auditing & Analytics

MQA Compulsory Subjects*

- Appreciation of Ethics and Civilisation (M'sian Students)
- Malay Communication Language (Int'l Students)
- Philosophy and Current Issues
- Workplace Professional Skills
- Integrity and Anti-corruption
- Co-Curriculum

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

Bachelor of ACCOUNTING AND FINANCE (HONOURS) WITH A SPECIALISM IN FORENSIC ACCOUNTING

(R2/041/6/0011)(07/25)(A6227)

- Advanced Financial Accounting & Reporting
- Taxation
- Management Accounting
- Auditing and Assurance
- Emerging Technologies for Accounting and Finance
- Financial Management
- Corporate Governance and Risk Management
- Advanced Corporate Reporting
- Data Analytics in Accounting and Finance
- Company Law
- Performance Management

Specialised Modules

- Application of AI in Finance

INTERNSHIP (16 weeks)

LEVEL 3

Common Modules

- Advanced Auditing
- Research Methodology in Accounting and Finance
- Corporate Finance
- Advanced Taxation
- Strategy, Sustainability & Leadership
- Advanced Performance Management
- Reflective Practice in Accounting & Finance
- Seminar in Accounting & Finance
- Specialised Accounting
- Accounting & Finance Research Project

Specialised Modules

- Big Data and Visual Analytical in Accounting & Finance
- Cybersecurity
- Robo Auditing & Analytics

MQA Compulsory Subjects*

- Appreciation of Ethics and Civilisation (M'sian Students)
- Malay Communication Language (Int'l Students)
- Philosophy and Current Issues
- Workplace Professional Skills
- Integrity and Anti-corruption
- Co-Curriculum

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

Banking & Finance Programmes

Our **Bachelor in Banking and Finance (Hons)** is an ideal and outstanding programme for those who wish to engage in financial services industry or government sectors, particularly in banking and central banking. Students on the course also have the flexibility of developing and building their specialised knowledge in areas such as in Financial Planning as well as Investment & Risk Management.

There is high global demand for well-trained Banking & Finance individuals in banking, finance, education, as well as government sectors. Career options may include:

- | | | |
|---------------------|------------------------------|---------------------------------|
| • Banker | • Finance Officer | • Financial Analyst |
| • Investment Banker | • Personal Financial Advisor | • Portfolio Investment Manager |
| • Trader | • Credit Officer | • Investment and Wealth Manager |
| • Finance Director | • Underwriter | • Risk Manager |

Finance is always at the heart of commerce that no one could get rid of. However, the advent of financial technology has disrupted the delivery of financial services. In order to remain competitive in digital banking sphere, banks have started to employ more staffing resources in the digitisation initiatives. Thus, our Bachelor in Banking and Finance (Hons) with a specialism in Financial Technology (one of the first industry-driven FinTech curriculum in Malaysia) will prepare the graduates to meet the needs of a rapidly disrupted Financial Services industry in Malaysia and internationally with the ability to develop innovative ideas and to employ state-of-the-art technologies.

APU is the first University in Malaysia to sign MOA with FAOM to jointly develop future talents to embrace FinTech. FAOM also advises APU in the FinTech curriculum development to align with the industry requirement.

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- Knowledge and skills in handling financial products, product development and working within the rapidly changing Global Banking and Finance Industry.
- Opportunities to develop into highly competent managers, who are well qualified not only in Banking and Finance but also other professional areas required for successful business administration and management.
- A background of banking and finance concepts, as well as knowledge and skills that allow for practical application in the modern-day workplace.
- FinTech knowledge and technical skill relevant to Banking and Finance.

Career options

- Stock Broker
- Banker
- Investment Banker
- Trader
- Finance Director
- Finance Officer
- Underwriter
- Personal Finance Advisor
- Loan and Credit Officer
- Bank Manager
- Branch Manager
- Banking Specialist
- Relationship Manager

Empowered by Industry Collaboration:

Professional Recognition:

For details and full accreditation list, please refer to page 37.

LEVEL 1

Students will learn fundamental skills required by every banking and finance professional, and the basic understanding of business management and finance. We will also expose them towards business & communication skills, accounting skills and management skills.

LEVEL 2

A broader range of skills will be learnt, in which students will gain a better understanding of banking instruments, procedures, credit management as well as the overall financial system environment. In addition, they will be introduced to the tool and test for various financial markets through Econometric software. Besides, students will also be introduced to hands on training on the underlying technologies enabling FinTech solutions such as Python programming and R-programming.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Students will make use of their previous studies and industrial experience to learn about the practical aspect of banking practices and theories as well as the development of international banking and investment theories in global banking practices, with aims to groom them as a leader in banking & finance industry. A final year project requires them to explore a topic individually - they will demonstrate their academic and practical aspects of their ability in the chosen area of study.

LEVEL 1

Common Modules

- Quantitative Skills
- Introduction to Management
- Business and Communication Skills
- Financial Accounting 1
- Business Economics
- Financial System
- Financial Accounting 2
- Essential of Banking & Finance
- Business Law
- Marketing

LEVEL 2

Common Modules

- Financial Statement Analysis
- Financial Technology
- Banking Instruments & Procedures
- Enabling FinTech
- Financial Planning
- Financial Econometrics
- Business Research Methods
- Financial Management
- Law of Banking & Finance
- Applications of AI in Finance

Specialised Modules

- Islamic Banking and Finance
- Credit Management

INTERNSHIP (16 weeks)

LEVEL 3

Common Modules

- Risk Management in Banking and Finance
- Financial Derivatives
- Corporate Finance
- Global Banking and Finance
- Investigation Report
- Ethics in Finance

Specialised Modules

- Treasury Management
- Wealth Management
- Entrepreneurial Finance
- Digital Banking

APU is also recognised by the Casualty Actuarial Society at the Silver Level of the CAS University Recognition Program. Our Bachelor of Science (Honours) in Actuarial Studies will not only prepare students for Exam 1, Exam 2, Exam MAS-I, Exam MAS-II and Exam 5 in the new CAS curriculum but also effectively prepare them for careers in the general insurance industry. With this achievement, APU joins a distinguished list of internationally recognised universities with exceptional actuarial studies programmes.

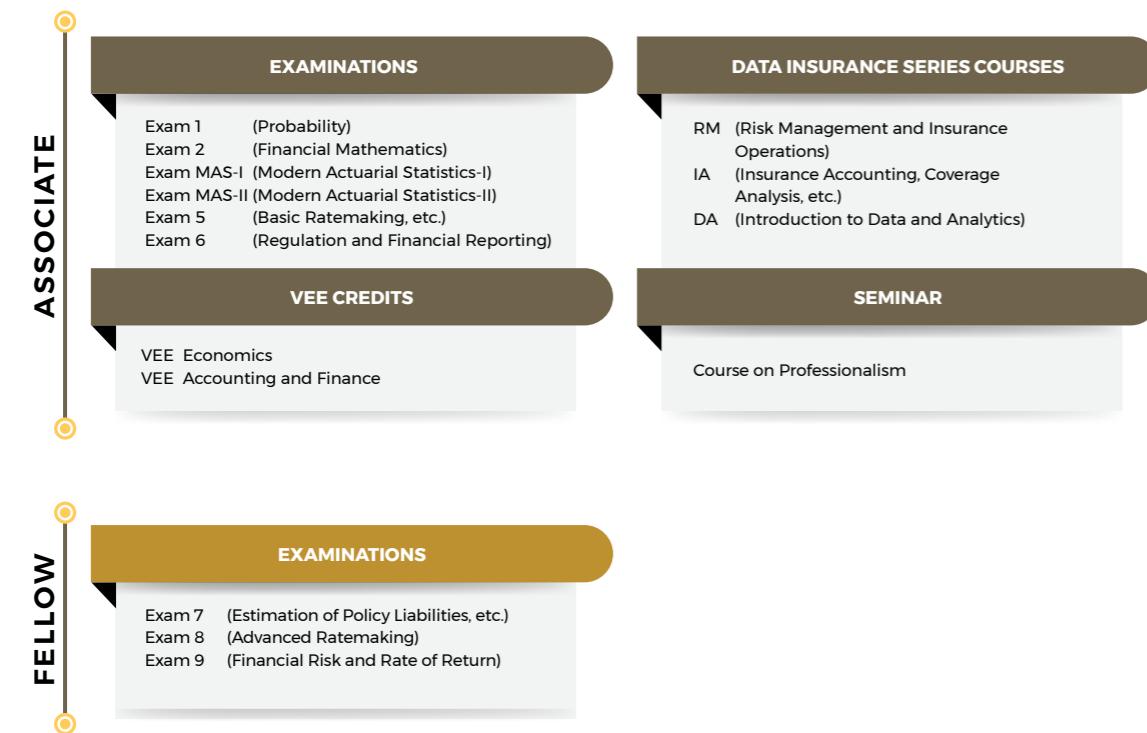

For more information, please visit: <https://www.casact.org/university-programs/cas-university-recognition-list>

About the CAS

With 10,000+ members working in more than forty countries, the CAS is the global leader in the credentialling and education of general insurance actuaries.

CAS members work in a vast array of settings, including insurance companies, educational institutions, state insurance departments, federal government agencies, independent consulting firms, and many other organizations that require management of risk. Learn more at www.casact.org.

PATHWAY TO CAS ASSOCIATESHIP AND FELLOWSHIP

APU students who earned preliminary exam waivers exemptions for university coursework from the IFOA (CS1, CS2, CM1, CB1 & CB2) may receive equivalent waivers from the CAS (Exam 1, Exam 2, Exam MAS-I, VEE Economics & VEE Accounting and Finance).

Bachelor of Science (Honours) in **ACTUARIAL STUDIES**

(R2/462/6/0003)(06/27)(MQA/FA1327)

At a glance | **Module outline**

Duration:
3 years full-time

This programme is specifically designed to provide students with:

- A course of study in Actuarial Science which has been awarded full accreditation by IFoA (UK).
- Competent teaching staff with professional or specialised academic qualification, possessing working experience from actuarial industries/academia.
- Course syllabus which is comprehensively structured in tandem and compliance with the 2 biggest actuarial bodies, the IFoA (UK) and the SOA (US).
- Comprehensive guidance to mould graduates to be industry-ready.

Career options

- Actuary
- Data Analyst
- Risk Analyst
- Financial Analyst
- Business Analyst
- Financial Planning Advisor
- Investment & Portfolio Manager
- Regulator
- Statistician
- Mathematician
- Professor

LEVEL 1

Equipping students with essential fundamentals of Mathematics, Statistics, Economics and Finance starts at Level 1. To complement the core knowledge, the students will also learn Business, Communication, and IT skills, before progressing to the Level 2 of Actuarial Science study.

LEVEL 2

The core knowledge of Mathematics and Statistics now act as engine to drive the complex models of Economics and Finance in the actuarial industries. Those core knowledge are integrated to form actuarial tools and infrastructure, ready to be used for planning and managing purposes. Students will receive exposure and coaching which are actuarial centric, targeting at industrial applications. They are gradually groomed to be more independent in their study and research efforts.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

The students are now ready to merge their knowledge and industrial experience to forge ahead and put into action their acquired skills in planning, managing and analysing risk. At this level, emphasis is placed on evaluating financial performance of businesses from actuary's perspectives. Students will have the opportunity to understand the critical roles played by actuaries, for example, in the development and pricing of insurance products. Risk Management, Actuarial Modeling and Ratemaking are some of a wide repertoire of skills to be used.

LEVEL 1

- Common Modules**
- Probability Models
 - Linear Algebra
 - Business and Communication Skills
 - Calculus
 - Calculus II
 - Financial Accounting
 - Microeconomics
 - Macroeconomics
 - Introduction to R Programming
 - Statistics

LEVEL 2

- Common Modules**
- Advanced Probability Models
 - Financial Statement Analysis
 - Predictive Analytics
 - Financial Mathematics
 - Regression Analysis
 - Financial Economics
 - Financial Planning and Control
 - Business Research Methods
 - Financial Management
 - Business Ethics & Governance
 - Mathematics of Financial Derivatives
 - Stochastic Processes

INTERNSHIP (16 weeks)

LEVEL 3

- Common Modules**
- Asset and Liability Valuations
 - Life Contingencies
 - Strategic Management
 - Corporate Finance
 - Risk Theory
 - Investigation in Actuarial Studies
 - Option and Bond Valuations
 - Survival Analysis
 - Life Contingencies 2
 - Pension and Retirement Plans
 - Project in Actuarial Studies

MQA Compulsory Subjects*

- Appreciation of Ethics and Civilisation (M'sian Students)
- Malay Communication Language (Int'l Students)
- Philosophy and Current Issues
- Workplace Professional Skills
- Integrity and Anti-corruption
- Co-Curriculum

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

World-class R&D and Innovation

ACADEMIC RESEARCH

For our staff, learning is a continuous journey where we keep abreast with the latest knowledge in a variety of fields. Our academic staff publish papers and present them at conferences worldwide. Some of the areas of research include:

- Embedded Systems & RFID
- Biometrics
- Games Engines
- 3D Graphics and Virtual Reality
- Security
- New Media Technologies
- Knowledge Management
- Mobile Learning
- Wireless Networks and Internet of Things (IoT)
- Adding Facial Expressions to Talking Head Models
- Marketing Professional Services
- Two and Three Dimension Audio-Visual Speech Synthesis
- Handwritten Signature Verification Using a Single Master Signature
- Customer Care
- E-Learning
- Entrepreneurial Business
- Various Aspects of Accounting
- International Marketing
- Generation of Business Ideas

WHAT DO
OUR ALUMNI SAY...

ANNIE YII ZHU YI (Malaysia)

**BA (Hons) in Accounting and Finance
with a specialism in Forex & Investments, Class of 2016**
Tax Associate Consultant - Pricewaterhouse Coopers (PwC)

"The best thing I found in APU is the number of additional opportunities that are available. The experience has broadened my horizon and really changed my view about many things. With the communication skills, teamwork and management skills I learnt in APU, I am confident that I will be able to cope with the challenges that lie ahead."

BELINDA TJAHJONO (Indonesia)

**BA (Hons) in Accounting and Finance
with a specialism in Forex & Investments, Class of 2019**
Restructure Specialist - ICBC Bank Indonesia

"APU offers a highly diversified community in a professional environment which brings out the best version of yourself. The broad networking experience was useful for me as I had the chance to know people with different cultures from various countries and nationality. Not to forget the very helpful and friendly accounting and finance lecturers that always encourages their students in anytime. The academic knowledge I learnt in class is essential, but a great skillset is what most needed by most employers. Through various workshops, seminars, extracurricular activities, practical studies and other various out-of-class events, it has developed my integrity, adaptability skills, curiosity towards new things and a characteristic of a lifelong learner."

WHAT DO OUR ALUMNI SAY...

REGINA LIM KHAY CHIEN (Malaysia)

BSc (Hons) in Actuarial Studies, Class of 2018
Data Analyst, Bursa Malaysia Berhad

"Apparently, enrolling with APU has been a delightful journey in shaping myself into a well-rounded person both physically and mentally. With the professional learning environment being implemented along with the inspiration that come from lecturers who valued creativity and respect criticism, I am allowed to free my minds, widen my horizons and truly express myself. In fact, they have also enlightened me to consider so many more non-traditional career paths than I ever thought of. Nevertheless, I am especially thankful to the presentation, group assignments, workshops and seminars that help to provoke my thinking as well as improve my communication skills at APU."

Chong Yee Voon (Malaysia)

**Bachelor in Banking and Finance (Hons)
with a specialism in Financial Planning, Class of 2020**
Credit Analyst, Public Bank

"Learning at APU does not only give me the knowledge in textbooks, APU also focuses on imparting soft skills to students through various guest lectures, events & workshops. Therefore, students can easily get a good job after graduation. The English-speaking environment has helped me to develop my skills in the language. I am very grateful that APU has provided us with such a good learning environment and helped me a lot in my profession."

WOODUN DHANDEVI (Mauritius)

**BSc (Hons) in Actuarial Studies, Class of 2018,
MSc in Data Science & Business Analytics, Class of 2019**
Junior Actuarial Analyst - Actuarial Partners Consulting

"Owing to the fact that APU offers a remarkable academic environment and interdisciplinary initiatives, I would heartily recommend the university to other students. The institution also proven its track record of employable graduates. To be honest, I was primarily attracted by these outstanding specifics of the university. Studying Actuarial Science is challenging, but the level and content of the lectures immensely enable students to understand the modules and to succeed the exams with flying colors."

Coupled to these, APU is affiliated with the Society of Actuaries and Institute Faculty of Actuaries, which eventually empowers us with the professional papers. APU outstands itself from other universities for its academic facilities, resources as well as its student support services, without which life at APU would not have been dynamic and exciting. However, I would not have benefited from all these unique features of the campus if I would not have obtained the 50% Merit Scholarship of APU. I take this opportunity to pay my gratitude to Asia Pacific University of Technology and Innovation for its financial support and most significantly for its education. Additionally, graduating with the Valedictorian Award 2018 supports the hard-work as well as determination that one should possess in order to achieve and succeed with flying colors."

Sharafunnisa Binti Ebramsha @ Ebramshaw (Malaysia)

BA (Hons) in Accounting & Finance with a specialism in Forex & Investments, Class of 2019
Financial Analyst - IBM

"One main thing I liked about APU is the multicultural experience I have gained throughout my 4 years journey in APU. Also, myself being a Student Ambassador, I get to meet diverse people from all around the world and this allowed me to explore about each of their countries expanding my knowledge further (beside just gaining education). This enabled me to have high adaptability to different environments which I am now able to apply in the working world. The degree papers which were exempted from ACCA helped me to continue the rest of the papers now as I have gained enough basic knowledge and skills on the Fundamental papers. APU has really molded me well and I am definitely grateful for that!"

NOUNG SAMBOTH (Cambodia)

Bachelor in Banking & Finance (Hons), Class of 2015
Regional Business Analyst - Forte Toko Lao Assurance

"APU has inspired me to be part of diversity. The university shows me the beauty of different cultures and equipped me with both approaches, individual and teamwork, which I found myself flexible enough in my career path."

WHAT DO OUR ALUMNI SAY...

TEO WAI LUN (Malaysia)

BA (Hons) in Accounting & Finance
with a specialism in Forensic Accounting, Class of 2016
Associate - Fraud Investigations & Dispute Services (FIDS), Assurance, Ernst & Young

"The ultimate three words - Unique Culture, One-of-a-Kind, and Competitive, can be used to describe APU. The lecturers are very passionate, some of them really push the students beyond the limit and whatever you are able to find out from the academic notes. We are trained to be efficient, effective and critical at the same time - so that we can cope with risks and uncertainties that we will face in real working life. Speaking of my current role, critical thinking is, indeed, the most exciting thing."

HO LIP XIN (Malaysia)

Foundation (2008)
BA (Hons) in Accounting and Finance, Class of 2011
Deputy General Manager (Corporate Planning) - Nirvana Asia Group

"APU, or previously known as UCTI, is a great university. It is rather unique in the sense that this university actually requires its students to wear formally for classes. This unique culture creates a professional environment within the campus and I am glad that my parents enrolled me into this university immediately after the completion of my secondary education."

The high quality education obtained from APU helps me to stand out among other applicants in job application, and I was offered a job in one of the premier accounting firm immediately upon graduation. Moreover, the knowledge that I obtained from the bachelor degree programme in APU is also of great help when I sat for my ACCA examination."

TSHERING DEKI DORJI (Bhutan)

BSc (Hons) in Actuarial Studies, Class of 2016
Strategy Officer - Bhutan National Bank Limited

"APU is the completed package to what a university should be. From passionate lecturers, some of whom are genuinely interested in making the students succeed, to a campus with all the facilities required for a fruitful college life, APU has played a critical role in shaping the person I am today. The cultural diversity of the students provided a wonderful opportunity to learn about various cultures and traditions of the world. The enthusiasm of lecturers pushes each student to reach their highest potential. It is an excellent learning institution that inculcates the spirit of competition, professionalism and hard work in their students."

SHRESTA DEVI BIJLOLL (Mauritius)

Bachelor in Banking and Finance (Hons), Class of 2016
Working at Ministry of Finance, Mauritius

"Studying at APU is not just about obtaining a quality education - it's also a life-changing experience. It's a journey that prepares students for the future and enables them to develop not only professionally, but also personally through involvement in a wide variety of clubs ranging from sports to literature and many more. It contributes to the enhancement of skills, knowledge, exposure and experience in the students. APU offers its students a conducive learning environment through state-of-the-art technologies and learning materials. The friendly lecturers are equipped with updated knowledge of the industries and their ability to relate it to real-world examples make the classes ever more interesting. The very multicultural students community enables us to mix around and learn together with students from over 110 countries - and that's just an amazing experience. Choosing to study at APU was one of the best decisions I ever made!"

Jung Choy Ni (Malaysia)

Bachelor in Banking and Finance (Hons)
with a specialism in Investment and Risk Management, Class of 2019
Credit Analyst - Public Bank

"I enjoyed participating in events, that took place almost every week at APU. They allowed us to gain new friendships with people from different countries and learn about their cultures. The courses provided by APU are also relevant to the industry and we are equipped with the necessary skillsets by the time we graduate. In addition, APU holds seminars or conferences almost every month, which these provide students an early exposure to the industry, as well as opportunities to meet potential employers."
