First and Only Malaysian University with QAA UK Accreditation 2024 - 2029

CERTIFICATE OF ACCREDITATION

This is to certify that

Asia Pacific University of Technology and Innovation

is accredited by the Quality Assurance Agency for Higher Education (QAA)
for the successful completion of the International Quality Review and meeting the
Standards and Guidelines for Quality Assurance in the European Higher Education Area.

Accreditation valid: 30/04/2024 - 29/04/2029

Vicki Sto , Chief Executive, QAA

Institution accredited
Asia Pacific University of
Technology and Innovation
Valid 04/2024 - 04/2029

APU achieves Global Quality Accreditation from QAA UK

Asia Pacific University of Technology & Innovation (APU), a leading Malaysian University has achieved a significant milestone by securing accreditation from the Quality Assurance Agency for Higher Education (QAA) in the United Kingdom. This accreditation underscores APU's commitment to excellence, rigorous quality assurance processes, and student-centered education.

The Quality Assurance Agency (QAA) carries out Quality Assurance for UK higher education institutions.

- APU underwent a thorough review process conducted by independent reviewers appointed by QAA. This involved almost a year of intense preparation and submission of documentation.
- A comprehensive physical Audit was held at APU in March 2024. Based on the Audit, APU has been deemed to have achieved Accreditation by the QAA – the FIRST ever Malaysian University to have achieved this.
- The Audit Panel confirmed that APU meets all ten UK and European Quality Assurance standards covering areas such as teaching & learning, student support, research, facilities, resources and governance.
- APU Degrees will now be recognised on an equal basis with Degrees from UK universities due to QAA Accreditation of APU as an QAA Accredited Institution.
- APU graduates will benefit from this prestigious recognition of their qualifications in Malaysia, the UK and beyond.

APU's commitment to continuous improvement and adherence to international best practices played a pivotal role in achieving this accreditation. QAA accreditation enhances APU's global reputation and validates its commitment to quality education. APU will continue to uphold the QAA standards and strive for further excellence with pride.

1st Malaysian University

1 of 24 in the world

Facts regarding APU's achievements in the latest
QS World University rankings:

QS World University Rankings 2026

- **Ranked #597** in the World - Top 2% of Universities Worldwide
- **Ranked No.16** in the World for International Students
- **Ranked No. 10** in the World for International Students Diversity
- **Ranked Top 170** for International Faculty in the World

QS World University Rankings : Asia 2026

- **Ranked #147** in Asia
- **Ranked #39** in South East Asia

TOP 20 IN ASIA & TOP 5 IN ASEAN

APU has achieved outstanding recognition in the AppliedHE All Asia 2026 Private University Ranking. This remarkable achievement reflects our unwavering commitment to academic excellence, innovation, and global impact. The AppliedHE Private University Ranking: All Asia was created with the goal of measuring the things about private universities that students deciding on their higher education journey find most important. The ranking measures what is important to students: the quality of teaching and learning, Employability, Research, Internationalisation, Community Engagement and Institution Reputation.

APU MAKES WAVES IN THE QS WORLD UNIVERSITY RANKING 2026 - TOP 2% GLOBALLY

The Asia Pacific University of Technology & Innovation (APU) has been officially recognised among the world's leading universities in the QS World University Rankings 2026, placing at #597 globally – positioning APU within the Top 2% of universities worldwide. APU is also ranked #16 in the world for International Students, reflecting its highly diverse and globally inclusive learning community.

APU IS AWARDED 2025 EMPLOYERS' CHOICE OF UNIVERSITY - TALENTBANK

Renowned for its 100% employability rate among graduates, APU underlined its strengths by being selected as the 2025 Employers' Choice of University in Talentbank's annual survey of employers. APU graduates emerged as 6 STAR of Employers' Top Choice in several key disciplines, namely Computing & IT, Animation, Advertising, Finance, and Marketing. APU has also kept its Leadership position in Computing & IT as CHAMPIONS of the Category. This significant achievement underlines APU's strategic alignment with emerging industry needs and its consistent track record in nurturing high-calibre talent.

APU IS AWARDED BEST AI UNIVERSITY, BEST TECH UNIVERSITY & BEST FUTURE READY UNIVERSITY - PC.COM AWARDS 2025

The PC.com Awards are prestigious accolades that celebrate organisations demonstrating excellence and leadership in technology and innovation. At the 2025 Awards, Asia Pacific University of Technology & Innovation (APU) once again stood out, earning Best Tech University, Best Future Ready University, and the newly introduced Best AI University titles, as voted by PC.com readers. These achievements reaffirm APU's dedication to delivering world-class digital technology programmes and shaping future-ready graduates. APU continues its winning streak, having previously secured both Best Tech University and Best Future Ready University in 2024, and Best Tech University in 2023.

APU'S LIST OF FIRSTS:

APU - FIRST EVER MALAYSIAN UNIVERSITY WITH QAA UK ACCREDITATION

Experience

APU's iconic campus

Asia Pacific University of Technology & Innovation (APU) is amongst Malaysia's Premier Private Universities, and is where a unique fusion of technology, innovation and creativity works effectively towards preparing professional graduates for significant roles in business and society globally.

An Ultra-modern Campus Built Today for the Needs of Tomorrow

Asia Pacific University of Technology & Innovation (APU)'s Ultra-Modern University Campus in MRANTI - Technology Park Malaysia is designed to be the state-of-the-art teaching, learning and research facility providing a conducive environment for students and staff. TPM is the ideal location for this new and contemporary campus due to its strong positioning as Malaysia's primary hub for leading-edge and high-tech developments in a wide variety of areas. It is also located in one of the most rapidly developing areas in Kuala Lumpur, and is well served and accessible through major highways, LRT and other forms of public transportation.

APU has earned an enviable reputation as an award-winning University through its achievements in winning a host of prestigious awards at national and international levels.

Malaysia's Award Winning University

- A Stylish Blend of Functionality & Accessibility
- A Unique Fusion of Technology, Innovation and Creativity
- Cutting-edge Technologies
- A Wide Variety of Spaces to Learn, Engage & Transform

APU's iconic campus is setting a new benchmark for design excellence among Malaysian Universities, combining an eco-friendly campus with a dynamic blend of technology and innovation to enable professional learning. It is a magnificent teaching & learning space for our students & staff designed by our award-winning architects & consultants.

Outstanding Support

Regardless of the programme you choose, you will be supported by highly qualified and enthusiastic professionals. Many enjoy an international reputation for their research and actively engage with leading names in the industry.

100% of our graduates are employed by graduation*; this is not just a number, but a significant symbol of our success and pride in nurturing professionals for global careers.

** Latest Graduate Tracer Study by Ministry of Higher Education, Malaysia.*

Industry Ready Graduates

The APU Career Centre connects and engages with over 12,000 Employers to ensure that our graduates are highly employable in both local and international corporations, as it closely supports APU students in both internship and career placement activities.

Work-ready, World-ready

Study with us and we'll equip you to become a world-ready professional, with the knowledge, attributes, skills and expertise that employers look for.

Employers are demanding that graduates not just have qualifications, but also have the experience and ability to contribute to the workplace. To meet these demands, APU develops programmes and partnerships with academic and industry partners, with a heavy focus on applied learning. This helps to ensure that the skills and knowledge taught at APU are up-to-date and in high demand.

Students

QS World University Rankings 2026

A Hub of Cultural Diversity

With students from over 130 countries, we ensure that you will gain memorable experiences alongside the diversified and colourful cultural environment. We have students from Asia, Central Asia, Middle East, Africa, Europe, Latin America and Oceania. Our International Students Support Centre helps you with the procedure to apply for your Student Pass before coming here. Upon arrival in Kuala Lumpur, you will be greeted with warmth by our friendly staff, who will pick you up and bring you to our campus.

Student Welcome Team

The Student Welcome Team was established by Asia Pacific University of Technology & Innovation (APU) to improve the arrival experience of international students in Malaysia. "Warm Welcome, Warm Hello, Warm What's up" is the theme of this ASK ME Team.

A Truly International Community

Just like the beautiful country in which we are located, APU is a rich blend of traditional and modern styles. We have developed a singular character to embrace those things that set us apart. We pride ourselves on the quality of both our teaching and research as well as having a unique living and learning environment.

Student Life @ APU

Being a university student can be one of your most exciting expeditions. Higher education opens up a world of new ideas, intellectual growth, new adventures and the building of lifelong friendships. Here at APU, we support you to take the time to explore not only the educational experiences but also the wide range of social, sporting and cultural activities on campus.

World-class

Facilities @ APU

An Integrated Community

The campus aims to establish a community aspect for the university – where integration is the key. Walkways, classrooms, communal spaces and discussion areas promote connectivity and cultivates exchange of ideas among students from different disciplines and academics, to implement cooperative learning concepts in line with the Industry Revolution 4.0.

APU provides access to world-class resources across a wide range of disciplines. This translates into industry-ready skills and a competitive edge for graduates.

Our campus is well-situated in a high-technology environment, and is equipped to enable every student to get the most out of your study experience at APU.

Cutting-Edge Technologies

The Campus blends technology, integration, innovation and creativity under one roof. It provides not just a learning environment, but also a lively community spot for our students to formulate new ideas, gain intellectual growth and discover new adventures. It is not only a university campus, but also the nurturing ground for world-changing global ideas. All spaces are carefully designed to create an unforgettable learning and lifestyle experience that lasts for a lifetime, while enabling professional learning and cultivating global mindsets. APU, as Malaysia's leading technological university, is the incubator for self-starting and innovative APU graduates. Our educational technology environment supports the development of graduates of this calibre, in which well-equipped computing and engineering laboratories with advanced software, hardware and technologies place students at the forefront of technological excellence.

Social Interaction Platforms

Fitness Sweatzone, student lounges, sports facilities and breakout rooms provide spaces for relaxation and socialisation throughout the day. They are carefully designed to create an unforgettable learning and lifestyle experience that lasts for a lifetime, especially for students who are studying away from home.

Our Partner in Quality

De Montfort University (DMU), UK

150 years of academic excellence

De Montfort University (DMU) Leicester is a dynamic, 21st century UK university. With an original campus in Leicester, a new one in London and growing campuses around the world in Dubai, Kazakhstan and Cambodia, DMU has a truly global outlook and international reach.

At DMU, our supportive and nurturing community will empower you to realise your dreams. Our courses are carefully designed and taught by expert academics to help you gain the skills needed to enter today's competitive job market and succeed in your career. The university is organised into four faculties; Arts, Design and Humanities, Business and Law, Health and Life Sciences and Computing, Engineering and Media. Our award-winning Careers Team provides guaranteed work experience opportunities including placements, internships and career mentoring to open doors that will help you achieve your ambitions.

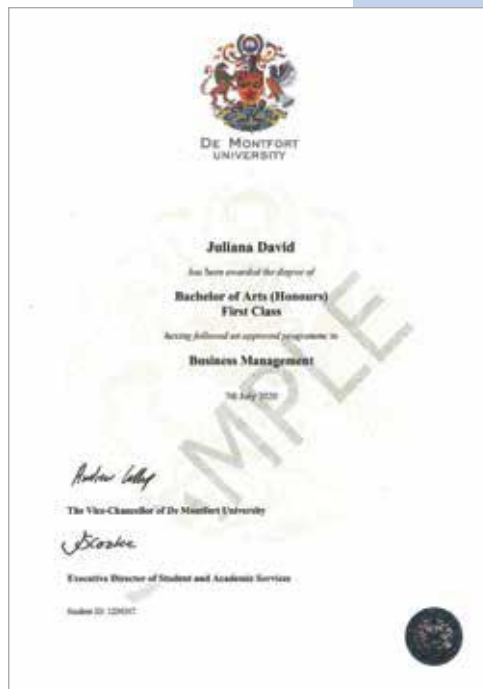

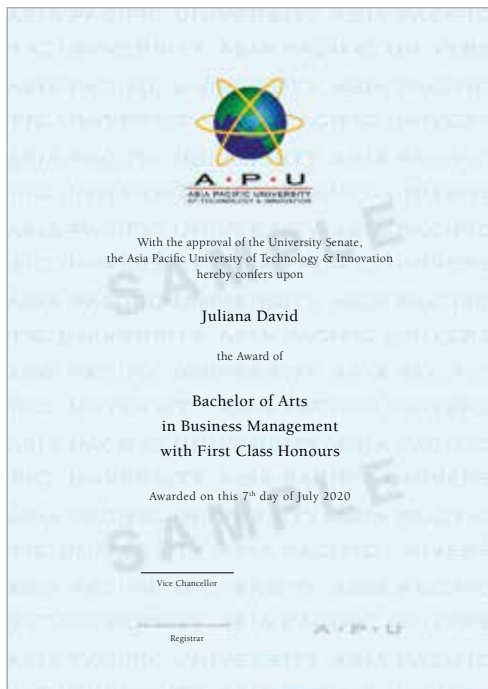

About DMU

- Since its beginnings in Leicester 150 years ago, DMU has transformed into a global university. We deliver outstanding education around the world, both at our own campuses and with our partner universities.
- Each year, international students from more than 140 countries choose to study at DMU.
- DMU is rated a 5-star 'excellent' institution by QS Top Universities for our teaching, facilities, employability, global outlook and more.
- DMU's Careers Team won Employability Team of the Year at the TargetJobs National Graduate Recruitment Awards for helping students reach their ambitions.
- DMU is the only UK university to be appointed as Chair of the hub for the United Nations' sustainable development goal 11 - sustainable cities and communities.
- Leicester is known for being welcoming and student-friendly, with a rich history and a diverse culture. It's been named the best city in the East Midlands to live and work (Good Growth for Cities Index, 2024).

Double your Advantage

APU-DMU **Dual Degree Programme**

- APU's partnership with DMU enables students to be awarded Dual Awards - separate degree certificates from each institution - and enhances not just teaching and learning experiences, but also career prospects.
- Upon graduation, students will receive 2 Degree Certificates & Transcripts: 1 from APU, Malaysia and 1 from DMU, UK.
- Both degrees are recognised locally & internationally.
- The APU-DMU Dual Degree Programmes are offered under an approved collaboration in accordance with the QAA UK Quality Code for Higher Education for the Assurance of Academic Quality and Standards in Higher Education as published by the United Kingdom Quality Assurance Agency (QAA).

Students from English speaking countries and those with qualifications taught in English (IGCSE, A-Levels, IB, American High School Diploma etc) are exempted from English requirements. Applications for exemption must be accompanied by supporting documents.

Note: The above entry requirements may differ for specific programmes based on the latest programme standards published by Malaysian Qualifications Agency (MQA).

Foundation Programme – Flexibility of Choice

MODULES YOU STUDY

The modules studied help develop your study skills, introduce you to what you can expect on your degree and also allow you to discover what you can study depending on whether you choose a degree in Accounting, Banking, Finance, Actuarial Studies, Psychology, Business & Management, Computing & Technology, Engineering, Industrial Design, Animation and Visual Effects.

ENRICHING EXPERIENCES - MORE THAN JUST A FOUNDATION

The APU Foundation Programme lays the pathway towards professional tertiary education. It is a vital transformation point for students' soft skills, general knowledge and preparatory subject fundamentals acquired at the Foundation lead to excellence in a student's education performance, as well as career readiness as they move on as global professionals eventually. This is achieved through 4 key areas:

- Leadership & Teamwork
- Problem-Solving Skills
- Social Skills & Responsibilities
- Practical Skills

The unique support system at APU Foundation Programme consists of helpful academic mentors who are committed in ensuring academic achievements, providing pastoral care, advising, mentoring, motivating students' potential and performance, to ensure that they undergo a smooth transition from secondary education to tertiary learning.

- Bachelor of Arts (Honours) in Marketing Management with a specialism in Digital Marketing
- Bachelor of Arts (Honours) in Human Resource Management
- Bachelor of Arts (Honours) in Human Resource Management with a specialism in People Analytics

Upon successful completion of this programme with CGPA of 2.5 & above and fulfilment of requirements for credit transfer, you will be eligible to progress into Level 1, Semester 2 of the following degree programmes offered at APU.

- Bachelor of Science (Honours) in Information Technology
- Bachelor of Science (Honours) in Information Technology with a specialism in:
 - Cloud Engineering
 - Digital Transformation
 - Financial Technology (FinTech)
 - Business Information Systems

Please take note that students who wish to progress to Bachelor of Science (Honours) in Information Technology or its specialism, require a Credit Pass in Mathematics at SPM, or a Credit Pass in Mathematics at Diploma in Business Information Technology.

* Bridging module/s needed before progress into Year 2

* For the full listing of our Diploma Programmes, please refer to the Pre-University programme brochure.

Business, Management, Marketing, Digital Marketing & Tourism

THE AIMS OF THE APU BUSINESS, MANAGEMENT, MARKETING, DIGITAL MARKETING, HOSPITALITY & TOURISM PROGRAMMES ARE TO:

- Facilitate your progression, both academic and practical, by developing knowledge, key skills and the capacity for independent and lifelong learning.
- Develop your skills in innovation, ingenuity and integration as well as problem-solving and decision-making in a business context which reflects the particular focus of the programme e.g. Business Management, Human Resource Management, International Business Management, E-Business, Tourism and Marketing.
- Develop strong communication and professional skills.
- Help you develop a Personal Development Portfolio to support your career aspirations.
- Provide a stimulating and accessible course of study that gives you a sound grasp of business knowledge & analysis and contemporary business issues which you can develop and apply in your future employment.

1: INNOVATION

through the design of curriculum, the module content and the learning approaches

2: INTEGRATION

through developing your capabilities to interrelate knowledge and to work in multidisciplinary teams

3: INFORMATION

through developing your knowledge and also your abilities to communicate effectively and persuasively

4: INTERACTIVITY

through the use of group work to develop your teamwork skills and through the use of technology to achieve interactivity of devices and people

5: IMAGINATION

in relation to new products, ideas, applications and solutions

International Students are required to re-apply for a new Student Pass (visa) should they decide to change the programme.*

INTERNSHIP / INDUSTRIAL TRAINING

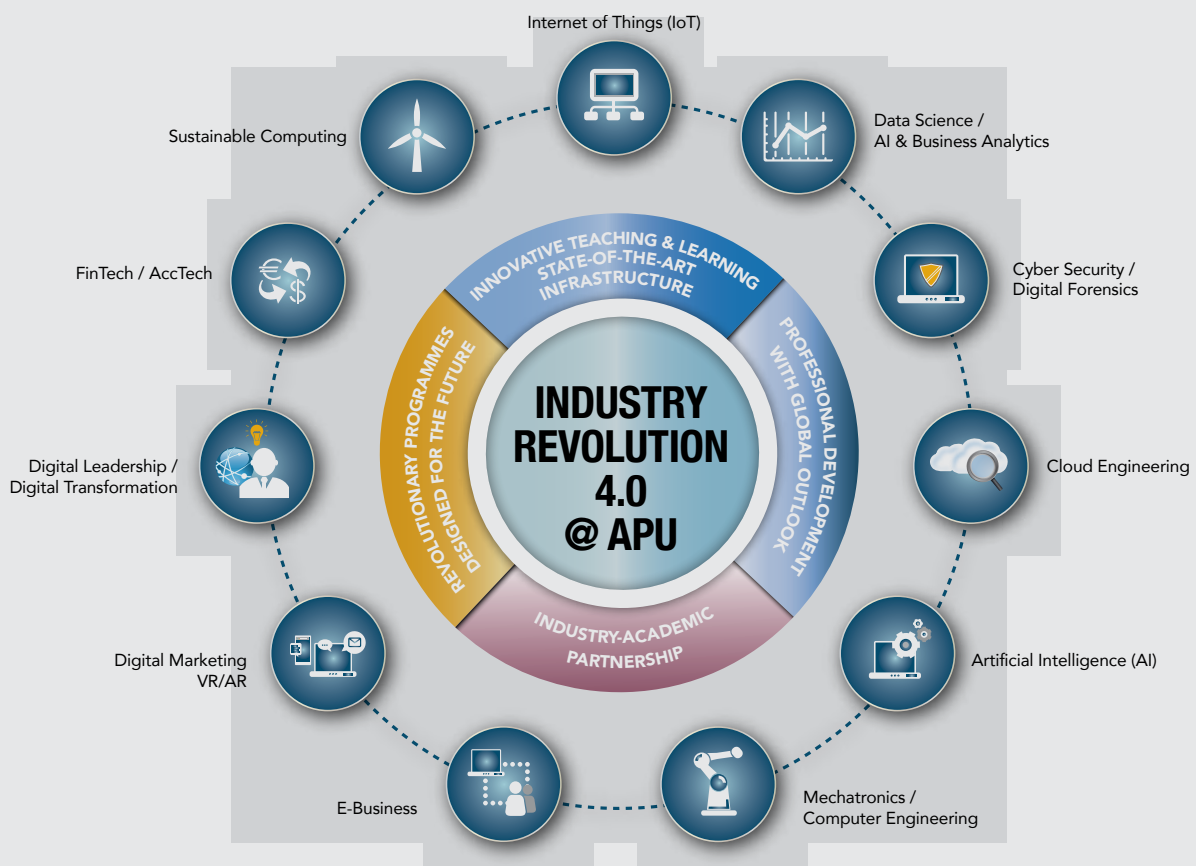

A well-structured internship or industrial training programme in collaboration with industry is incorporated into the curriculum. The main objective of the internship programme is to further enhance your employability. In many cases the same company at which you had internship/industrial training will offer you employment as soon as you graduate. In all cases you will gain an invaluable insight into the world of business and management practices and be better equipped to position yourself for the career you seek.

Embracing the wave of Industry Revolution 4.0

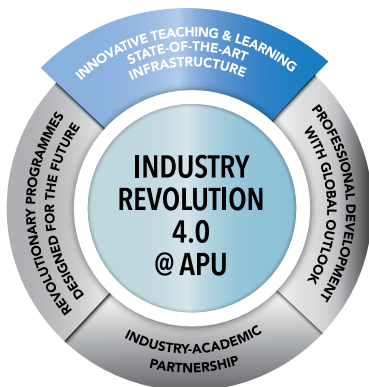

FUTURE-PROOFING THE WORKFORCE OF THE FUTURE

New waves of technological disruptions and the emergence of advanced technologies have resulted in the Fourth Industrial Revolution (Industry 4.0), where Robotics, Artificial Intelligence (AI), Machine Learning, Virtual Reality (VR), Cloud Engineering, Internet of Things (IoT), Data Science are going to transform the way businesses operate – routine, mundane jobs will be replaced and there is a growing need to develop “smarter” talents that can ride along the wave of digital transformation.

At APU, we developed our own IR 4.0 strategy to prepare our students to join the workforce of the future. We nurture the world's future innovators and uphold our Vision as a University of Technology and Innovation.

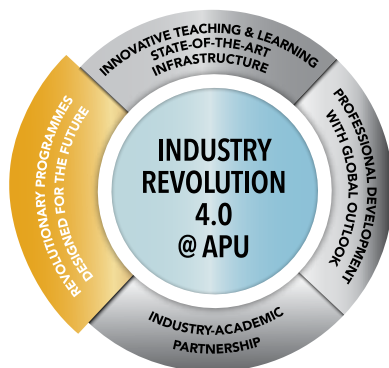

INDUSTRY REVOLUTION 4.0 @ APU

INNOVATIVE TEACHING & LEARNING STATE-OF-THE-ART INFRASTRUCTURE

In the era of Industry 4.0, learning is no longer confined within the classroom. Our iconic campus houses world-class facilities that aim to nurture Creativity & Innovation. Industrial-grade infrastructure are built to provide real-life exposure to our students, cultivating their practical skills aside from academic knowledge. We have also redesigned our teaching & learning methods to stimulate critical thinking, decision making, teamwork and build confidence.

REVOLUTIONARY PROGRAMMES DESIGNED FOR THE FUTURE

New technologies mean new expertise, while this translates into a new need of talents in new areas. We address the needs of the industry, to help to build talents who can manage, operate and innovate under the new IR4.0 environment, by carefully designing new programmes of the future. Our programmes are first-of-its-kind, such as in Cyber Security, Data Science, Internet of Things (IoT), Artificial Intelligence (AI), Digital Leadership, Digital Transformation, Sustainable Computing, VR/AR, Financial Technology (FinTech), Accounting Technology (AccTech), Digital Marketing, E-Business, Mechatronic, Computer Engineering, Cloud Engineering and more.

INDUSTRY-ACADEMIC PARTNERSHIP

Industry 4.0 is all about the "industry". Our close relationship with our industry partners allows students to be exposed to real-life case studies, enabling them to formulate innovative solutions even before they graduate. Innovative accelerators such as GrowthX Academy and Supercharger create a platform for students to realize their world-changing ideas, inspiring them to build startups and develop world-changing solutions.

PROFESSIONAL DEVELOPMENT WITH GLOBAL OUTLOOK

Communication skills, professionalism and cultural sensitivity are 'people' element skills that cannot be replaced by machines and automation. Under our unique formula to nurture professionalism, we create an ecosystem that simulates the workplace on-campus. Global outlook, international understanding and respect are nurtured through continuous immersion in multicultural discourse, as our campus houses a community of students from over 130 countries.

Future Proof Your Career

And land that dream job

CMI is the Chartered Management Institute, dedicated to increasing the number of professionally qualified managers and leaders. CMI works with education providers to inspire students to unleash their potential and become skilled, confident and successful managers and leaders identified by their Chartered status.

- Certification is awarded to students after completing the respective Bachelor's degree programme.

KEY AREAS IN THE DIGITAL MARKETING MIX

Professional Recognition of APU Degree Programmes

**The Malaysian Institute
of Chartered Secretaries
and Administrators**

APU Programme	MAICSA Exemption
Bachelor of Arts (Honours) in Business Management	10/16 subjects
Bachelor of Arts (Honours) in International Business Management	10/16 subjects
Bachelor of Arts (Honours) in Human Resource Management	9/16 subjects

APU degrees enable graduates to satisfy educational requirements of professional registration.

Upon successful completion of Bachelor Degrees in Business Management, Human Resource Management and International Business Management, students are eligible for 9-10 subjects (out of 16 subjects) exemption from the MAICSA Professional Diploma in Corporate Administration (PDCA) and MAICSA International Qualifying Scheme (IQS).

The Malaysian Institute of Chartered Secretaries and Administrators (MAICSA) was founded in 1959 as an affiliated body to The Institute of Chartered Secretaries and Administrators (ICSA) in the United Kingdom. It is now one of the nine Divisions of ICSA worldwide, having achieved a Division status in 2001. Malaysian Government has gazetted MAICSA as a prescribed body under Section 139(A) of the Companies Act 1965, which means that Associate and Fellow members of MAICSA can automatically act as company secretaries without having to apply for a licence from the Companies Commission of Malaysia (CCM).

**Malaysian Association
of Company Secretaries**

APU Programme	MACS Exemption
Bachelor of Arts (Honours) in Business Management	10/16 subjects
Bachelor of Arts (Honours) in International Business Management	10/16 subjects
Bachelor of Arts (Honours) in Human Resource Management	10/16 subjects

Upon successful completion of Bachelor Degrees in Business Management, Human Resource Management and International Business Management, graduates are eligible for 10 papers (out of 16 papers) exemptions from Malaysian Association of Company Secretaries' Professional Examination.

Malaysian Association of Company Secretaries (MACS) is an independent, self-regulating local professional body established and registered under the Societies Act 1966 on the 30th November 1989 and has been an approved body under Fourth Schedule of the Companies Act, 2016. Fellows and full members of the Association are qualified to practise as Certified Company Secretaries.

**Chartered Institute of
Management Accountants**

APU Programme	CIMA Exemption
Bachelor of Arts (Honours) in Business Management	All certificate level (4 papers)
Bachelor of Arts (Honours) in International Business Management	All certificate level (4 papers)

Upon successful completion of Bachelor Degrees in Business Management and International Business Management, graduates are entitled to a 4-paper exemption out of 16 papers from Chartered Institute of Management Accountants (CIMA). CIMA is the world's largest professional body of management accountants. Its unique blend of management accounting, financial accounting and business-focused subjects produces competent and confident Chartered Global Management Accountant who can lead their organisations to sustainable success.

Collaborative Industrial Partners

Industry-academia collaboration is a strategic necessity to ensure the quality and relevance of our programmes. Through our Industry-Academia Collaboration (IAC) model, we design programmes in collaboration with inputs from the industry, that are also aligned with the government's initiatives to address the shortage of skilled talents. Over the years, APU has established collaborations with key industry players worldwide; we have been delivering highly-relevant programmes that help us develop skilled and professional graduates for the workforce.

APU's partnership with Home Deal allows students to have the opportunity to work on real-life projects as they experience listing their own products on the platform. They will be required to conduct seller and buyer analysis, marketing plans in order for their products to be marketable. It will be a truly hands-on experience for their future growth in e-business.

Through our collaboration with SAP, students will have the opportunity to undergo SAP & ERP related modules. They will have the hands-on experience through assignments & case studies under the modules, in which these can be applied in their future careers, as they embark onto their journey as business professionals. As these systems are widely used in the industry, such exposure provides them with an added advantage, making them even more well-equipped and employable.

“Every Business is Becoming a Technology Business”

- Manju Bansal - Digitalist Magazine - 2018

APU Leading Digital Transformation in Business, Management & Marketing

The Future is Technology - Every Business needs Future-Ready Digital Talents for the Digital Economy

As the 4th Industrial Revolution (IR4.0) takes over the world, we are seeing an upward trend of the amalgamation of Digital Technology with Business. As businesses infuse digital technology within their operations, Digital Transformation elevates customer experience, and transforms business models and operating models within the organisation.

“By 2025, the total number of digital skills required by workers to perform their jobs is projected to increase over 6 times – from one billion skills today to 6.8 billion skills.”

- APAC Digital Skills Index - 2020

“As digital technologies become more prevalent, the digital economy will become the foundation of the modern economy. Accelerating the digital economy is no longer an option but crucial for Malaysia.”

- Malaysia Digital Economy Blueprint - 2021

“The digital economy is expected to continue its significant contribution to the country this year, based on an estimated 19.1 per cent contribution to the GDP in 2019 by the Department of Statistics Malaysia, following a forecast of 6.7 per cent economic growth for 2021 by the World Bank. With the launch of MyDIGITAL, the expected contributions from the digital economy towards the GDP is an estimated 22.6 per cent by 2025.”

- Malaysia Digital Economy Corporation (MDEC) - 2021

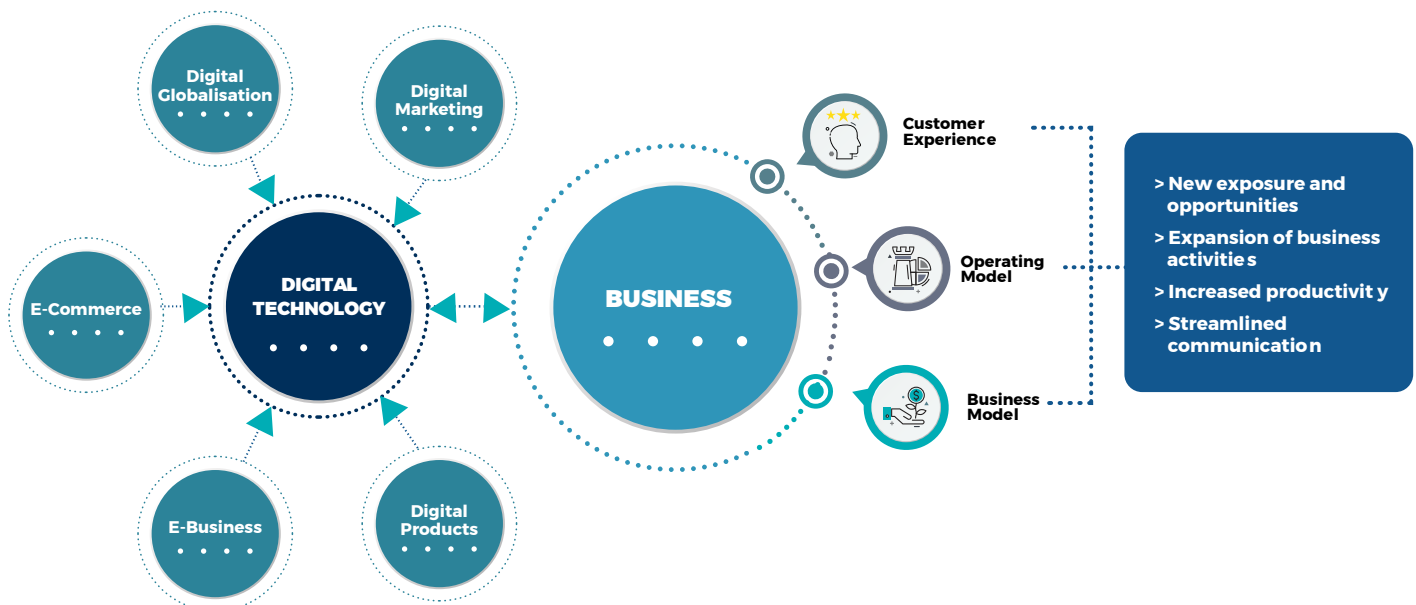

APU - LEADING DIGITAL TRANSFORMATION IN BUSINESS, MANAGEMENT & MARKETING

Every Business is dependent on Technology and needs to embrace the Challenges of Digitalisation

For businesses to remain resilient and competitive, they need to innovate, adopt Digital Products, Digital Solutions, have a Digital Growth Strategy, use technology for expansion and growth, as well as equip their workforce with the necessary skill sets to embrace widespread transformation and digital revolution in this Digital Age. The role of "Technology in Business" is vital and technology has challenged and changed every aspect of the way businesses operate at a fast pace. Rapid globalisation has been possible because of technology. Anyone can now do business anywhere in the world with use of high-speed internet, connectivity and presence of well-connected social media. Technology has boosted the development of E-Business, E-Commerce & Digital Marketing and it has brought new dynamics to the globalisation of businesses.

E-Commerce E-Business

Rise of E-Commerce – Buying & Selling without Borders

As the global pandemic disrupted the world, internet shopping platforms became the dominant channel for consumers to shop for essential goods and services. It is forecasted that e-business and e-commerce will sustain this upward trend and continue to grow. As future e-business professionals, you will be trained to manage business beyond traditional borders, shaping you into professionals who are able to meet future business challenges.

E-Commerce penetration rates are forecasted to increase from 15% in 2020 to

25%

in 2025.

- *MarketWatch, 2020*

Rise of e-commerce – buying & selling without borders

Bachelor of Arts (Honours) in **BUSINESS MANAGEMENT**

(R3/0414/6/0087)(08/30)(A6223)

At a glance

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- An understanding of the context, nature, role and significance of management activities as undertaken by managers in a range of organisations.
- An opportunity to develop well-researched, logical and integrated solutions to multi-faceted problems in uncertain and dynamic business contexts.
- Exposure to the areas of modern business management and how these work in concert to produce competitive organisations.
- A wide range of employment skills such as critical thinking, problem solving and interpretive skills, effective written and oral communication, using IT in business applications, and the ability to conduct research in business management.

Career options

- Business Development Manager
- Operations Manager
- Project Manager
- Supply Chain and Logistics Manager
- Procurement Manager
- Sales and Marketing Manager
- Human Resources Manager
- Management Consultant
- Data Analytics/Business Intelligence Manager
- Entrepreneur / Startup Founder

LEVEL 1

Level 1 builds a strong foundation in how businesses operate by introducing key areas such as management, marketing, law, economics, accounting, and entrepreneurship. Students also develop essential skills in communication, digital thinking, quantitative analysis, and people management. This common first-year pathway ensures every student gains a broad and solid grounding in business concepts before progressing to more advanced and specialised studies.

LEVEL 2

Students move into more advanced business topics, exploring organisational behaviour, digital marketing, innovation, financial decision-making, and research methods. They deepen their understanding of functional management through subjects like operations, e-business, ethics, governance, and applied AI for business. Critical thinking and global awareness are further developed. Students also gain hands-on insights into business processes using industry-relevant tools, strengthening their readiness for the workplace.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Level 3 focuses on strategic, leadership, and enterprise-level thinking. Students learn to manage change, lead people, plan projects, and make strategic decisions in global and dynamic environments. They also gain practical experience with enterprise systems and international supply chain management. This final stage integrates theory with real-world application, culminating in a Final Year Project where students independently investigate a business topic and demonstrate their professional and academic capabilities.

LEVEL 1

Common Modules

- Introduction to Management
- Digital Thinking and Innovation
- Quantitative Skills
- Business and Communications Skills
- Business Economics
- People Management
- Fundamentals of Accounting
- Marketing
- Business Law
- Fundamentals of Entrepreneurship

Specialised Modules

- Introduction to Management

LEVEL 2

Common Modules

- Behavioural Science in Organisations
- Digital Marketing
- Innovation Process
- Business Research Methods
- Delivering Customer Value
- Managing Finance

Specialised Modules

- Operations Management
- E-Business Management
- Business Ethics and Governance
- Applied Artificial Intelligence for Business
- International Culture and Communications
- Critical Thinking in Management

INTERNSHIP (16 weeks)

LEVEL 3

Common Modules

- Venture Building
- Global Marketing
- Managing People and Performance

Specialised Modules

- Strategic Management
- Project Management
- Managing Change
- Enterprise Resource Planning - Investigations
- Managing International Supply Chain
- Final Year Project
- Critical Issues in Managing Information Systems in Organisations
- Leadership Theory and Practice

MQA Compulsory Subjects*

- Appreciation of Ethics and Civilization (M'sian Students)
- Malay Communication Language (Int'l Students)
- Co-Curriculum
- Integrity and Anti-Corruption
- Philosophy and Current Issues
- Workplace Professional Skills

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

Bachelor of Arts (Honours) in **BUSINESS MANAGEMENT** WITH A SPECIALISM IN E-BUSINESS

(R3/0414/6/0087)(08/30)(A6223)

At a glance

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- An understanding of the context, nature, role, and significance of management activities across different organisations, with particular emphasis on how digital technologies and e-business models transform modern business practices.
- An opportunity to develop well-researched, logical, and integrated solutions to multi-faceted problems in dynamic business environments, especially those influenced by digital innovation and online operations.
- Exposure to core areas of modern business management and specialised e-business domains, and how these work together to produce agile, competitive, and technology-enabled organisations.
- A wide range of employment skills including critical thinking, problem solving, communication, digital literacy, IT application, and the ability to conduct research in business and e-business management contexts.

Career options

- E-Business Manager
- Digital Transformation Manager
- E-Commerce Operations Manager
- Digital Marketing Manager
- Product Manager (Digital Platforms)
- Business Analytics & AI Manager
- Technology-Driven Project Manager
- Customer Experience (CX) Manager
- Innovation and Digital Strategy Manager
- Entrepreneur / Digital Startup Founder

Note: The specialism will appear only in the academic transcript.

LEVEL 1

Level 1 builds a strong foundation in how businesses operate by introducing key areas such as management, marketing, law, economics, accounting, and entrepreneurship. Students also develop essential skills in communication, digital thinking, quantitative analysis, and people management. For those pursuing the E-Business specialism, this year provides the digital literacy and business fundamentals needed to understand how technology shapes modern organisations. The common first-year pathway ensures all students gain a solid grounding before progressing to more advanced e-business and digital management studies.

LEVEL 2

Students move into more advanced business topics, exploring organisational behaviour, digital marketing, innovation, financial decisions, and research methods. Those in the E-Business specialism deepen their understanding of digital operations, online business models, and AI-driven business tools through specialised modules and electives. They also gain practical exposure to e-commerce processes and web-based business applications, helping them connect technology with business strategy. This level enhances their ability to analyse digital trends and prepares them for more complex e-business challenges.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Level 3 focuses on strategic, leadership, and enterprise-level thinking within a digital business environment. Students learn to manage change, lead teams, and make strategic decisions while understanding how technology supports business transformation. The E-Business specialism further develops their capability to analyse digital finance systems, digital marketing technologies, and enterprise platforms. Students apply their learning through practical tools and industry-relevant systems, culminating in a Final Year Project that allows them to explore a business or e-business issue in depth, demonstrating both academic and professional competence.

LEVEL 1

Common Modules

- Digital Thinking and Innovation
- Quantitative Skills
- Business and Communications Skills
- People Management
- Business Economics
- Fundamentals of Accounting

Bachelor of Arts (Honours) in **BUSINESS MANAGEMENT** WITH A SPECIALISM IN DIGITAL LEADERSHIP

(R3/0414/6/0087)(08/30)(A6223)

At a glance

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- An understanding of the context, nature, role, and significance of management activities, with added focus on how digital technologies shape leadership, strategy, and organisational behaviour.
- The ability to develop well-researched, logical, and integrated solutions to multi-faceted business challenges, particularly those arising from digital transformation and rapid technological change.
- Exposure to modern business management areas and digital leadership practices, and how these work together to build agile, innovative, and future-ready organisations.
- A wide range of employment skills including critical thinking, problem solving, communication, digital literacy, people management, and the ability to conduct research in leadership and technology-driven business environments.

Career options

- Chief Digital Officer
- Digital Transformation Manager
- E-Business Manager
- Innovation and Strategy Manager
- Project Manager
- Operations Manager
- Product Development Manager
- Business Analytics Manager
- Management Consultant
- Entrepreneur / Startup Founder

Note: The specialism will appear only in the academic transcript.

LEVEL 1

Level 1 builds a strong foundation in how businesses operate by introducing key areas such as management, marketing, law, economics, accounting, and entrepreneurship. Students also develop essential skills in communication, digital thinking, quantitative analysis, and people management. For those choosing the Digital Leadership specialism, the early exposure to digital thinking and innovation helps them begin understanding how technology influences leadership, decision-making, and organisational culture. This common first-year pathway ensures every student gains a solid grounding in business concepts while preparing specialism students to lead digital-driven initiatives in later years.

LEVEL 2

Students move into more advanced business topics, exploring organisational behaviour, digital marketing, innovation, financial decision-making, and research methods. Digital Leadership students deepen their understanding of how organisations navigate digital transformation and sustainability through elective modules focused on leading digital change and ESG leadership. These subjects help them develop the mindset and skills needed to lead responsibly in a technology-driven world. Alongside functional management and exposure to industry tools, students strengthen their readiness to manage digital initiatives and guide teams through organisational change.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Students apply their earlier learning to address practical and modern business challenges. They strengthen their leadership, strategic management, and project management skills while gaining insights into enterprise systems and global business operations. Digital Leadership students further enhance their ability to lead data-informed and technology-enabled teams through electives on HR analytics and digital execution. These areas equip them to manage digital strategies, optimise talent decisions, and drive organisational transformation. The Final Year Project allows specialism students to explore digital leadership issues in depth, showcasing both their academic competence and their readiness to lead in a digital-first business environment.

LEVEL 1

Common Modules

- Digital Thinking and Innovation
- Quantitative Skills
- Business and Communications Skills
- Business Economics
- People Management
- Fundamentals of Accounting
- Marketing
- Business Law
- Fundamentals of Entrepreneurship

Specialised Modules

- Introduction to Management

- Venture Building
- Global Marketing
- Managing People and Performance

Specialised Modules

- Strategic Management
- Project Management
- Managing Change
- Enterprise Resource Planning
- Investigations
- Managing International Supply Chain
- Final Year Project
- Talent Acquisition and Retention Analytics
- Digital Execution

MQA Compulsory Subjects*

- Appreciation of Ethics and Civilization (M'sian Students)
- Malay Communication Language (Int'l Students)
- Co-Curriculum
- Integrity and Anti-Corruption
- Philosophy and Current Issues
- Workplace Professional Skills

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

Bachelor of Arts (Honours) in **BUSINESS MANAGEMENT** WITH A SPECIALISM IN AI & BUSINESS ANALYTICS

(R3/0414/6/0087)(08/30)(A6223)

At a glance

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- An understanding of the context, nature, role, and significance of management activities, with added emphasis on how data, analytics, and AI technologies support decision-making in modern organisations.
- An opportunity to develop well-researched, logical, and integrated solutions to complex business problems, particularly those requiring analytical thinking, data interpretation, and AI-enabled insights.
- Exposure to contemporary business management areas and how analytics, digital tools, and AI applications work alongside traditional functions to create competitive, data-driven organisations.
- A wide range of employment skills including critical thinking, problem solving, communication, data literacy, analytical skills, IT application, and the ability to conduct research in AI-supported and data-centric business environments.

Career options

- Business Analytics Manager
- AI Solutions Manager
- Data Strategy Manager
- Digital Transformation Manager
- Operations Manager
- Project Manager
- E-Business Manager
- Product Development Manager
- Management Consultant
- Entrepreneur / Startup Founder

Note: The specialism will appear only in the academic transcript.

LEVEL 1

Level 1 builds a strong foundation in how businesses operate by introducing key areas such as management, marketing, law, economics, accounting, and entrepreneurship. Students also develop essential skills in communication, digital thinking, quantitative analysis, and people management. For students choosing the AI & Business Analytics specialism, the early focus on digital thinking and quantitative skills helps them begin understanding how data and technology influence modern business decisions. This first-year pathway ensures all students gain a solid grounding in business concepts while equipping specialism students with the mindset needed to work with data-driven insights and AI-supported tools in later levels.

LEVEL 2

Students move into more advanced business topics, including organisational behaviour, digital marketing, innovation, research methods, and financial decision-making. Those pursuing the AI & Business Analytics specialism strengthen their understanding of how organisations use data and artificial intelligence through elective modules focused on data management and AI applications in business. These areas help students develop analytical thinking, interpret business data, and understand how AI enhances efficiency and decision-making. Alongside functional management skills and exposure to industry tools, students gain the technical and analytical capabilities needed to contribute meaningfully to data-driven business environments.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Students apply their earlier learning to address strategic and practical business challenges. They build leadership, strategic management, and project management skills while exploring enterprise systems and global business operations. For AI & Business Analytics students, the specialism electives further develop expertise in digital strategy, analytics, and AI-driven customer experiences. These subjects equip them to analyse complex datasets, design data-informed business strategies, and apply AI to personalise customer engagement. The Final Year Project allows students to explore analytical or AI-focused business problems, demonstrating their ability to integrate business knowledge with advanced digital and analytical competencies.

LEVEL 1

Common Modules

- Digital Thinking and Innovation
- Quantitative Skills
- Business and Communications Skills
- People Management
- Business Economics
- Fundamentals of Accounting
- Marketing
- Business Law
- Fundamentals of Entrepreneurship

Specialised Modules

- Introduction to Management

LEVEL 2

Common Modules

- Behavioural Science in Organisations
- Digital Marketing
- Innovation Process
- Business Research Methods
- Delivering Customer Value
- Managing Finance

Specialised Modules

- Operations Management
- E-Business Management
- Business Ethics and Governance
- Applied Artificial Intelligence for Business
- Data Management
- Customer Experience and Personalization through AI

INTERNSHIP (16 weeks)

LEVEL 3

- Appreciation of Ethics and Civilization (M'sian Students)
- Malay Communication Language (Int'l Students)
- Co-Curriculum
- Integrity and Anti-Corruption
- Philosophy and Current Issues
- Workplace Professional Skills

(*All students are required to successfully complete these modules as stipulated by the Malaysian Qualification Agency)

Bachelor of Arts (Honours) in **BUSINESS MANAGEMENT** WITH A SPECIALISM IN BUSINESS ECONOMICS

(R3/0414/6/0087)(08/30)(A6223)

At a glance

Module outline

Duration:

3 years full-time

This programme is specifically designed to provide students with:

- An understanding of the context, nature, role, and significance of management activities, complemented by economic thinking that explains how markets, industries, and economic forces influence business decisions.
- An opportunity to develop well-researched, logical, and integrated solutions to multi-faceted business problems, particularly those requiring economic analysis, policy evaluation, and data-driven decision-making.
- Exposure to modern business management areas and economic frameworks, and how these work together to help organisations remain competitive in dynamic local and global economic environments.
- A wide range of employment skills such as critical thinking, problem solving, analytical reasoning, communication, IT application, and the ability to conduct research that applies economic principles to real business challenges.

Career options

- Financial Planning and Analysis Manager
- Business Economist / Economic Analyst
- Strategy and Business Development Manager
- Operations Manager
- Project Manager
- Risk Management Manager
- Market Research Manager
- Management Consultant
- Corporate Finance Manager
- Entrepreneur / Startup Founder

Note: The specialism will appear only in the academic transcript.

LEVEL 1

Level 1 builds a strong foundation in how businesses operate by introducing key areas such as management, marketing, law, economics, accounting, and entrepreneurship. Students also develop essential skills in communication, digital thinking, quantitative analysis, and people management. For those choosing the Business Economics specialism, the early exposure to business economics and quantitative skills helps them begin understanding how economic forces influence business decisions, markets, and organisational performance. This first-year pathway ensures all students gain a broad grounding in business concepts while preparing specialism students to analyse economic issues and apply economic thinking in managerial contexts later on.

LEVEL 2

Students move into more advanced business topics, exploring organisational behaviour, digital marketing, innovation, financial decision-making, and research methods. Business Economics students deepen their understanding of economic theory and policy through elective modules that focus on intermediate microeconomics and macroeconomics. These areas help them analyse market behaviours, evaluate policy impacts, and understand economic trends that influence industries and organisations. Combined with functional management knowledge and practical exposure to business processes, students develop strong analytical and problem-solving abilities that support economic decision-making in real business environments.

INTERNSHIP

Students will undertake an Internship/Industrial Training for a minimum period of 16 weeks to prepare them for a smooth transition from the classroom to the working environment.

LEVEL 3

Students apply their previous learning to address complex business and strategic challenges. They strengthen their leadership, project management, and strategic thinking skills while gaining insights into enterprise systems and global business operations. Business Economics students further enhance their economic analysis capabilities through electives that explore managerial economics, international economics, and economic development. These subjects enable them to evaluate business decisions using economic frameworks, assess global market dynamics, and understand the economic factors shaping organisational growth. The Final Year Project allows specialism students to investigate economics-related business issues, demonstrating their ability to integrate economic reasoning with real-world management challenges.

LEVEL 1

People Analytics: Driving Smarter HR Decisions

In an era defined by digital disruption and global interconnectedness, the way organizations understand and manage their people is being revolutionized. Traditional HR instincts are no longer enough for today's competitive edge due to its inability to transform workforce data into strategic insights. People Analytics blends technology, data science, and human behaviour to decode patterns, predict outcomes, and drive smarter decisions for modern organisations' consumption. By aligning analytical precision with a deep understanding of human dynamics, organizations can unlock new levels of engagement, performance, and sustainable growth.

Digital Marketing

The increasing reliance on technology has changed the world all around us. Today, most organisations in every sector are migrating online, thereby, giving rise to Digital Marketing. Small-scale businesses to giants in the business world have realised that Digital Marketing is the most effective approach to bring their businesses to the right audience while accelerating business growth. With the COVID-19 pandemic disrupting most business operations, employers are also now actively seeking skilled employees with the right digital expertise to help drive business objectives such as revenue and brand awareness for their organisations.

Digital Marketing Ad spending allocated by organisations worldwide is projected to increase from

50% in 2019 to.
63% by 2024..

- eMarketer, 2020

DIGITAL MARKETING

Digital Marketing specialism will provide students with knowledge about a broad range of digital marketing technologies and how they are applied in practically infused digitized settings. Global Hospitality and Tourism Studies

HTMi Switzerland

Hotel and Tourism Management Institute Switzerland, is a prestigious private educational institution located in Sörenberg, Switzerland. Established in 1999, HTMi has grown to become a leading provider of hospitality and tourism management education, offering a range of undergraduate and postgraduate programs designed to prepare students for successful careers in the global hospitality and tourism industry.

HTMi Switzerland's Kuala Lumpur Centre, as part of the Asia Pacific University of Technology & Innovation (APU) Campus, is the first such centre established by a Swiss hospitality school in Malaysia.

Study Tour - Students who are enrolled in the Bachelor of Science (Honours) in Hospitality and Tourism programme of APU will have the option for a 2-weeks study trip in Year 2 to HTMi Switzerland and is applicable to students who are able to obtain visa to travel. Accommodation, meals, airport transfer and programme costs are paid for by APU. Students would only need to pay for their airfare, travel insurance & any personal expenses.

HTMi Switzerland stands out as an exceptional institution for those seeking careers in hospitality and tourism management. With its comprehensive programs, experienced faculty, and strong industry ties, it prepares students effectively for successful futures in this dynamic field.

A dual award from HTMi Switzerland signifies a hallmark of excellence on any profile and paves the way for future career success. Graduates can be found in senior management positions across the global spectrum, exemplifying the advantage of commencing from the pinnacle. For over 25 years, the institution has been imparting Swiss hospitality and tourism education, and it currently ranks among the top 19 providers of hospitality and tourism management education according to the recent QS rankings by Subject.

I am APU

WHAT DO
OUR ALUMNI SAY...

WOON YAW KWAN (Malaysia)

BA (Hons) in International Business Management, Class of 2011
Manager, Enterprise Relationships Planning - Philip Morris International

"The student life here is beyond what I have imagined. The beyond boundaries experience being with them really opens up your mind and imagination. Apart of suiting up in working attire, we were bombarded with tonnes of presentations. My presentation skills and self-confidence gained from studying at APU set me apart from many peers when I enter"

MOHTADA HUSSEIN SALEM AL-ATTAS (Yemen)

BA (Hons) Business Management, Class of 2014
Assistant to the Hotels Director / Project Manager - "AMIRSOY" Mountain Resort, Uzbekistan

"In the programme that I studied, it was a great opportunity to learn the basics of business management, accounting skill and marketing as well as a wide range of subjects to help students understand greatly how companies operate nowadays. The experience I had in Business Management major and those common subjects from other disciplines helped me improve all the skills needed in my career such as presentation skills, writing skills, communication skills and problem solving skills."

WHAT DO OUR ALUMNI SAY...

YAP SONG MING (Malaysia)

BA (Hons) in Marketing Management, Class of 2018
Area Manager - Maxis

"During my time at APU, I learnt to be a responsible young adult. APU nurtured us on how to improve time management, self-care, and other soft skills. I have improved my critical thinking skills, which had helped me extensively in my current job role. I've learnt to develop myself professionally, in terms of communication with clients and my colleagues."

FELIX TANZIL ROBERTSIO (Indonesia)

BA (Hons) Business Management with specialism in e-Business, Class of 2013
Paid Media Specialist - Excess

"APU's courses are comprehensive. The modules allowed us to think out of the box, exposed us to the real need of customers, and helped us to comprehend the online system as a business. The E-business course has successfully equipped me with knowledge of the real world. The education which promised me the future where I am today!"

HAFIZA BINTI SAMDUDDIN (Malaysia)

BA (Hons) in International Business Management, Class of 2015
Administrative Assistant - Advance Language Management (ALMA)

"The learning environment in APU was very unique. Students of the University came from over 100 countries and everyone was able to work together amicably. Most of the students in APU are international students and therefore, English is the main communication medium in the campus. This has enable me improve my English proficiency level. APU is also one platform which can accommodate students with various learning experience such as through internship program, industrial visits and external talk series from industry, which will entails for better career prospect knowledge and employment option for students."

NIGINA KADIROVA (Uzbekistan)

BA (Hons) in Marketing Management, Class of 2014
Online Recruitment Agent - BCN LIP Language School, Barcelona, Spain

"I am very grateful to APU for training me during the whole studying period in terms of finishing course works on time and preparing for exams. It has developed a very valuable skill in me which is time management and self-discipline as well as ability to close tasks/projects on time which is super important for all of the companies out there."

KHAWAJA SYED SALMAN MAHMOOD (Pakistan)

BA (Hons) in International Business Management, Class of 2011
Supply and Distribution (Wholesale) Manager - Westside Petroleum Group, Australia

"My time at APU (then UCTI) truly enhanced my skills and personality both professionally and personally. The culture at UCTI fostered the sharing of ideas, critical discussions, and collaboration among students and faculty across a wide range of interests. I think it's rare to find the cultural and academic diversity in any institution which students from different parts of world bring under one roof at UCTI. From Sports to Music, at UCTI there was an array of activities to indulge. Appreciation in form of U-Edge / Prism Award are massive factors in motivating students to involve and compete in co-curricular activities."

UNGKU NAZREN AL HAQ BIN HARUN AL-RASHID (Malaysia)

BA (Hons) in Marketing Management, Class of 2010
Assistant Vice President, Technology & Innovation - Iskandar Regional Development Authority (IRDA)

"When asked how APIIT/APU helped me to be what I am today, the simple answer is exposure to various international students in Kuala Lumpur. From the mega Singapore based M+S Singapore based projects in 2012, the mega 4,500 acre township in southern Johor to looking after / attracting investor confidence in my current job, I've always felt the exposure to other culture made me have an openness to respect, accept and value other people's perspective on many things. As a Marketing Management graduate, my education never stopped after APIIT/APU and the certification I obtained enabled me to be exposed to experience where I am currently pursuing my CFA and CB with the AICB. I firmly believe it is your attitude, not aptitude that determines your altitude in life. And my attitude was partly shaped by APIIT/APU."

It's all going on
@APU Students from over
130 countries ☆
